

**ELMIRA AREA 3B PUMP STATION AND  
FORCEMAIN ROUTING  
NOTICE OF COMPLETION  
CLASS ENVIRONMENTAL ASSESSMENT  
TOWNSHIP OF WOOLWICH**

The Township of Woolwich has completed a study to identify a preferred wastewater pump station location and forcemain alignment to provide sanitary servicing to the proposed development for Area 3B in Elmira. The recommended alternative is to construct a new pump station at the northeast corner of Area 3B that discharges through a forcemain aligned within the development to an outlet manhole on Poffenroth Path (MH 554) near Church Street West, and hence to the downstream trunk sewer system.

The above project is being planned under Schedule B of the Municipal Class Environmental Assessment. Subject to comments received as a result of this Notice, and the receipt of necessary approvals, the Township of Woolwich intends to proceed with the design and construction of this pump station and forcemain.

The Project File report is available on-line at the Township's website ([http://www.woolwich.ca/en/newsevents/Engineering\\_Public\\_Notices.asp](http://www.woolwich.ca/en/newsevents/Engineering_Public_Notices.asp)) and a hard copy is available at the following location:

If concerns arise regarding this project, which cannot be resolved in discussion with the Township, a person or party may request that the Minister of the Environment make an order for the project to comply with Part II of the Environmental Assessment Act (referred to as a Part II Order), which addresses individual environmental assessments. Requests must be received to the Minister at the address below within 30 calendar days of this Notice. A copy of the request must also be sent to the Township Project Manager. If there is no request received by January 6, 2012, the pump station and forcemain alignment will proceed to design and construction as presented in the Project File report.
