The Township of Woolwich must be notified of the chosen site for the disposal of waste materials.

Section 1.2.2.3 Demolition of a Building, under the Ontario Building Code states:

- (1) The applicant for a permit respecting the *demolition of a building* shall retain a *professional engineer* to undertake the general review of the project during *demolition*, where
 - (a) the *building* exceeds 3 *stories* in building height or 600 m² in building area,
 - (b) the *building* structure includes pre-tensioned or post-tensioned members,
 - (c) it is proposed that the *demolition* will extend below the level of the footings of any adjacent *building* and occur within the angle of repose of the *soil*, drawn from the bottom of such footings, or
 - (d) explosives or a laser are to be used during the *demolition*.

Section 1.3.1.1. Requirements for Permits, also states:

- (3) Where a permit is required for the *demolition of a building* in Sentence 1.2.2.3. (1), descriptions of the structural design characteristics of the *building* and the method of *demolition* shall be included in the application for a permit to demolish a *building*.
- (4) No person shall commence *demolition of a building* or any part of a *building* before the *building* has been vacated by the occupants except where the safety of the occupants is not affected.
