The Township of Woolwich is initiating a Class Environmental Assessment (Class EA) for the Breslau East Connector Road. The study area is generally located south and east of the existing Breslau community, immediately south of the new Thomasfield Homes mixed use/residential development and the CN Rail corridor, and north of Menno Street.

Building on the recommendations from the approved 2017 Breslau Settlement Plan, this Municipal Class EA will investigate and evaluate alternative solutions for the transportation infrastructure that is required to provide connectivity between the existing and new areas of the Breslau community, as well as provide improved access to the proposed Breslau GO Transit station and the proposed employment land adjacent to Greenhouse Road.

The study is being undertaken in accordance with a “Schedule C” Municipal Class EA which require public and stakeholder consultation, evaluation of alternatives, an assessment of the potential impacts of the proposed alternatives and identification of measures to mitigate any adverse impacts. Upon completion of the study, an Environmental Study Report (ESR) documenting the process will be available for public review and comments for a period of 30 calendar days prior to the Township of Woolwich council endorsement.

The Township of Woolwich wants to ensure that anyone with interest in this project can provide input to the decision-making process. Public Consultation Centres (PCCs), advertised well in advance, will be scheduled to solicit input from key stakeholders and the public. The first PCC is anticipated to take place in the late spring of 2019.

We encourage you to contact the study team, see contact details below, with any suggestions or comments that you may have about this study. All comments will be posted as part of public record, except for personal information. In an effort to reduce the number of notices that need to be mailed out, due to the large study area, please provide your email address if you would prefer to receive future notifications related to this study electronically.

Yours truly,

**Ryan Tucker, P.Eng.**  
Engineering Project Supervisor  
Township of Woolwich
