 - d) Minimum Lot Frontage for corner lots shall be 13 metres and Minimum Lot Width/Frontage for internal lots shall be 11 metres, within the R-5 zone;
 - e) For the purpose of calculating Lot Width, as defined in Section 2.77 of this Bylaw, the building line shall be 6 metres setback from the front lot line,

B. BUILDING LINE SETBACKS PROVISIONS

- i. The minimum building line setback shall be:
 - a) 5.0 metres to the residential unit;
 - b) 6.0 metres for garages (attached or detached); and
 - c) 3.5 metres for a front porch.
- ii. Minor variations in the setback of the front wall are permitted to accommodate features such as recessed entranceways, angled windows and other such architectural features and such features will be interpreted as forming part of the front wall.
- iii. Notwithstanding Clause i), the setback of the front wall of the garage shall be equal to or greater than the setback of the front wall of the residential unit (except where noted in Clause C. i). Where a front porch is attached to a residential unit, the garage may extend in front of the front wall of the main building but shall not extend beyond the front porch and, in all cases, shall maintain a minimum 6-metre building line setback.
- iv. For the purpose of Clause iii), a front porch shall be attached to the front wall of the residential unit, covered by only a roof, have a minimum depth of 1.5 metres and shall cover a minimum of 40% of the width of the residential unit (including the garage). Where the garage extends in front of the front wall of the portion of the residential unit with a front porch but does not extend in front of the remaining portion of the front wall of the residence that does not have a porch, then the combined width of the porch and the remainder of the front wall must cover the minimum 40% of the width of the residential unit provided the front porch has a minimum width of 10 feet.
- v. Notwithstanding Clause i), semi-detached and single-family corner units may have a minimum 4.5 metre building line setbacks on their flankages (exterior side yards).

- vi. Notwithstanding Clause i), the minimum building line setback of buildings and structures adjacent to Highway 7 right-of-way shall be 13.7 metres.
- vii. Daylighting triangles shall be deemed to be part of a lot only for the purpose of calculating lot width, frontage, lot area and building line setbacks.

C. GARAGE/DRIVEWAY PROVISIONS

- i. Notwithstanding Part B of this Section, a garage may extend up to 1.37 metres (4.5 feet) in front of the front wall of a residence or the front wall of a front porch provided:
 - a) The exterior width of the garage does not exceed 50% of the width of the house, including the garage;
 - b) The exterior width of the garage does not exceed 7.62 metres (25 feet);
 - c) The front wall of the garage has a minimum setback of 6 metres plus the amount the garage extends in front of the residence (i.e. If the garage extends 1 metre in front of the residence, then the setback would be 6 m. + 1 m. = 7 metres); and
 - d) That a maximum of 10% of the homes on any one street may have the garage extending in front of the front wall of the residence or porch.

For the purpose of determining the percentage of homes in clause i) d) above, streets containing less than 10 homes may have a maximum of 1 home with a garage extending in front of the front wall of the residence or porch, subject to the above-noted regulations. For the purpose of calculating the percentage (10%) for streets containing more than 10 homes, any fraction or part of a home shall be rounded to the lower whole number.

Committee of Adjustment application A 13/03 approved April 28, 2003

- ii. Notwithstanding Part B of this Section, when a front porch is required under Clause B iii) and has a porch width that is less than 40% of the house (including the garage), the following applies:
 - a) The lot shall have a minimum frontage greater than 10 metres (33 feet);
 - b) The front porch shall have a minimum width of 3 metres (10 feet) and a minimum area of 4.6 square metres (50 square feet) and must be attached to the front wall of the residential unit;
 - c) The porch shall extend a minimum of 0.91 metres (3 feet) in front of the front wall of the garage; and
 - d) Maximum exterior width of the garage, measured from exterior pier to pier, shall be 7.62 metres.

For the purpose of measuring minimum front porch width of 3 metres as noted in ii) b) above, for lots with Lot Widths equal to or less than 11 metres, the minimum porch foundation shall be 2.6 metres and the minimum width of the roof above the porch, measured between eaves shall be 3 metres (note: maximum overhang of eaves shall be 0.3 metres).

- iii. Notwithstanding Part B of this Section, the following provisions applies to a house with a three car garage:
 - a) The lot shall have a minimum frontage of 18 metres (60 feet) or greater;
 - b) The front porch shall have a minimum width of 4.6 metres (15 feet) and must be attached to the front wall of the residential unit;
 - c) The porch shall extend a minimum of 1 metre (3.2 feet) in front of the front wall of the garage; and

- d) Maximum exterior width of the garage, measured from exterior pier to pier, shall be 9.15 metres.

 - c) 3.5 metres for a front porch.

Daylighting triangles shall be deemed to be part of a lot only for the purpose of calculating lot width, frontage, lot area and building line setbacks.
- ii) Notwithstanding Clause i), the setback of the front wall of the garage shall be equal to or greater than the setback of the front wall of the residential unit. Where a front porch is attached to a residential unit, the garage may extend in front of the front wall of the main building but shall not extend beyond the front porch and, in all cases, shall maintain a minimum 6 metre building line setback.
- iii) For the purpose of Clause ii), a front porch shall be attached to the front wall of the residential unit, covered by only a roof, have a minimum depth of 1.5 metres and shall cover a minimum of 40% of the width of the residential unit (including the garage).
- iv) Detached garages on lots with a residential building - one unit or residential building - semi-detached, may have a minimum setback to one side lot line of less than 1 metre to a minimum 0.3 metres.
- v) Garages attached to or in front of residential units shall not cover more than 50% of the lot frontage.
- vi) All residential units located within the lands indicated as "Church Street Frontage" shall be oriented to and have their front facade facing Church Street. For the purposes of this provision, front facade shall include front doorway and entranceway which shall be useable.
- vii) That Townhouse Blocks shall not have more than eight units attached in one continuous block. Notwithstanding Section 15.4.3, total internal side yards between two blocks of row-house units may be a minimum of 3.5 metres.
- viii) That Blocks 1, 2 and 3 as shown on Schedule "A" shall be limited to 16, 16 and 7 units, respectively.
- ix) Notwithstanding Clause i), semi-detached corner units (except those adjacent to Church Street and Park Street) may have 3.5 metre building line setbacks on their flankages (exterior side yards).
- x) Notwithstanding any other provisions of this By-law, a maximum of 18 of the 36 semi-detached building lots within this plan, excluding corner lots, may be developed with a free-standing Single Family Dwelling subject to the applicable regulations of this Section and Section 13 of this By-law. Porches on single family dwelling units in Block 4, as shown on Schedule "A", must extend a minimum of 0.3 metres in front of the front wall of attached garages.

- xi) Notwithstanding Section 13 of this By-law, where two detached single family dwellings are constructed on a semi-detached lot, each unit shall have an interior side yard of a minimum of 0.9 metres.
- xii) Notwithstanding clause v), a maximum of ten of the single family units in the R-5 zone may have garages which cover between 50 and 52% of the lot frontage provided the front wall of the garage is set back at least 1 metre behind the front of the porch. Notwithstanding clause iii), the porch may cover a minimum of 34% of the width of the house where the garage is between 50 and 52% of the lot frontage.
- xiii) Notwithstanding clause ii), a maximum of ten of the single family units in the R-5 zone may have the front wall of a single car garage (3.66 metres and less in width) extending up to 0.3 metres past the front of the useable porch. A minimum of ten of the single family units in the R-5 zone must have the front of the useable porch extending at least 0.3 metres in front of the front wall of the garage.
- xiv) Driveways on lots less than 10 metres wide shall be a maximum of 3.66 metres wide. Driveways on lots equal to or greater than 10 metres in width shall be limited to a maximum width of 6 metres.

26.1.252 Notwithstanding any other provisions of this By-law, the lands being 1158 Foerster Road (Part of Lot 83, GCT) as illustrated on the Plan forming Section 26.1.252 of Schedule 'A', of this By-law may have a minimum lot area of 17 hectares and in conformity with all other applicable regulations in Sections 6 and 7.

By-law 27-2002 passed April 23, 2002 (Westfield Acres)

Amended by By-law 1-2008 passed January 15, 2008 (Tanem Developments and 2024348 Ontario Limited)

26.1.253 Notwithstanding any other provisions of this By-law, the lands illustrated on the Plan forming Section 26.1.253 of Schedule 'A' (hereafter called the "Plan") of this By-law are subject to the following specific provisions, in addition to the provisions of the zones in which the parcel lies:

A. SPECIAL LOT PROVISIONS

- i.
 - a. The Minimum Lot Frontage and Minimum Lot Width for the Residential Mixed – High Density (R-5) Zone shall be 9 metres and Minimum Lot Area shall be 344 square metres.
 - b. For the purposes of calculating lot width, as defined in Section 2.77 of this By-law, the building line shall be setback 6 metres from the front property line.

B. SPECIAL BUILDING LINE SETBACKS PROVISIONS

- i. The minimum building line setback shall be:
 - a. 5.0 metres to the residential unit;
 - b. 6.0 metres for garages (attached or detached); and
 - c. 3.5 metres for a front porch.
- ii. "Minor variations" in the setback of the front wall are permitted to accommodate features such as recessed entranceways, angled windows and other such architectural features and such features will be interpreted as forming part of the front wall.
- iii. Notwithstanding Clause i), the setback of the front wall of the garage shall be equal to or greater than the setback of the front wall of the residential unit (except where noted in Clause C.i). Where a front

porch is attached to a residential unit, the garage may extend in front of the front wall of the main building but shall not extend beyond the front porch and, in all cases, shall maintain a minimum 6 metre building line setback.

- iv. For the purpose of Clause iii), a front porch shall be attached to the front wall of the residential unit, covered by only a roof, have a minimum depth of 1.5 metres and shall cover a minimum of 40% of the width of the residential unit (including the garage). Where the garage extends in front of the front wall of the portion of the residential unit with a front porch but does not extend in front of the remaining portion of the front wall of the residence that does not have a porch, then the combined width of the porch and the remainder of the front wall must cover the minimum 40% of the width of the residential unit provided the front porch has a minimum width of 3m.
- v. Notwithstanding Clause i), semi-detached and single-family corner units may have 4.5 metre building line setbacks on their flankages (exterior side yards).
- vi. Daylighting triangles shall be deemed to be part of a lot only for the purpose of calculating lot width, frontage, lot area and building line setbacks.

C. SPECIAL GARAGE/DRIVEWAY PROVISIONS

- i. Notwithstanding Part B of this Section, a garage may extend up to 1.37 metres (4.5 feet) in front of the front wall of a residence or the front wall of a front porch provided:
 - a) The exterior width of the garage does not exceed 50% of the width of the house, including the garage;
 - b) The exterior width of the garage does not exceed 7.62 metres (25 feet);
 - c) The front wall of the garage has a minimum setback of 6 metres plus the amount the garage extends in front of the residence (i.e. If the garage extends 1 metre in front of the residence, then the setback would be 6 m. + 1 m. = 7 metres); and
 - d) That a maximum of 10% of the homes on any one street may have the garage extending in front of the front wall of the residence or porch.

For the purpose of determining the percentage of homes in clause i) d) above, streets containing less than 10 homes may have a maximum of 1 home with a garage extending in front of the front wall of the residence or porch, subject to the above-noted regulations. For the purpose of calculating the percentage (10%) for streets containing more than 10 homes, any fraction or part of a home shall be rounded to the lower whole number.

- ii. Notwithstanding Part B of this Section, when a front porch is required under Clause B iii) and has a porch width that is less than 40% of the house (including the garage), the following applies:
 - a) The lot shall have a minimum frontage greater than 10 metres (33 feet);
 - b) The front porch shall have a minimum width of 3 metres (10 feet) and a minimum area of 4.6 square metres (50 square feet) and must be attached to the front wall of the residential unit;
 - c) The porch must extend a minimum of 0.91 metres (3 feet) in front of the front wall of the garage; and
 - d) The maximum exterior width of the garage, measured from exterior pier to pier, shall be 7.62 metres.

For the purposes of measuring minimum front porch width of 3 metres as noted in ii) b) above, for lots with lot width equal to or less than 11 metres, the minimum porch foundation width shall be 2.6 metres and the minimum width of the roof above the porch measured between the eaves shall be 3 metres (note: maximum overhang of eaves shall be 0.3 metres), for lots greater than 11 metres in width the minimum porch foundation width shall be 3 metres.

- iii. Detached garages on lots with a residential building - one unit or residential building - semi-detached, may have a minimum setback to one side lot line of 0.3 metres.

Committee of Adjustment application A1/03 approved January 20, 2003

- iv. Driveways on lots:
 - Less than 10 metres wide shall be a maximum of 3.66 metres;
 - 10 metres to less than 18 metres in width, shall be limited to a maximum width of 6 metres; and
 - 18 metres in width or greater, shall be permitted a maximum driveway width of 10 metres.

Notwithstanding the maximum driveway width noted above, where the external width of the garage exceeds the maximum allowable width of the driveway, the driveway shall be permitted to flare / taper from the front lot line to the external wall width of the garage, provided that the width of the driveway at the front property line maintains the maximum allowable driveway width.

D. ROW TOWNHOUSE BLOCK PROVISIONS

Notwithstanding Sections 6 and 15, and the applicable regulations noted in this Section, the following shall apply to the row townhouses:

- i. The minimum building line setback of a garage shall be 9 metres;
- ii. The minimum side yard requirement shall be 3 metres, and 4.5 metres to a lot line adjacent to a road;

- iii. That no more than 7 units shall be attached in one continuous block for Blocks 154 and 156, and no more than 5 units shall be attached in one continuous block for Blocks 155 and 157. By-law 108-2002 passed December 10, 2002 (Valleyview Heights)

By-law 83-2006 passed November 28, 2006 (General Amendment)

26.1.263 Notwithstanding any other provisions of this By-law, the lands illustrated on the Plan forming Section 26.1.263 of Schedule ‘A’ (hereafter called the “Plan”) of this By-law are subject to the following specific provisions, in addition to the provisions of the zones in which the parcel lies:

A. SPECIAL LOT PROVISIONS

- i. For the purposes of calculating lot width, as defined in Section 2.77 of this By-law, the building line shall be setback 6 metres from the front property line.

B. SPECIAL BUILDING LINE SETBACKS PROVISIONS

- i. The minimum building line setback shall be:
 - a) 5.0 metres to the residential unit;
 - b) 6.0 metres for garages (attached or detached) for single family and semi-detached units; and
 - c) 3.5 metres for a front porch.
- ii. “Minor variations” in the setback of the front wall are permitted to accommodate features such as recessed entranceways, angled windows and other such architectural features and such features will be interpreted as forming part of the front wall.

- iii. Notwithstanding Clause i), the setback of the front wall of the garage shall be equal to or greater than the setback of the front wall of the residential unit (except where noted in Clause C i). Where a front porch is attached to a residential unit, the garage may extend in front of the front wall of the main building but shall not extend beyond the front porch and, in all cases, shall maintain a minimum 6-metre building line setback.
- iv. For the purpose of Clause iii), a front porch shall be attached to the front wall of the residential unit, covered by only a roof, have a minimum depth of 1.5 metres and shall cover a minimum of 40% of the width of the residential unit (including the garage). Where the garage extends in front of the front wall of the portion of the residential unit with a front porch but does not extend in front of the remaining portion of the front wall of the residence that does not have a porch, then the combined width of the porch and the remainder of the front wall must cover the minimum 40% of the width of the residential unit provided the front porch has a minimum width of 10 feet.
- v. Notwithstanding Clause i), semi-detached and single-family corner units may have 4.5 metre building line setbacks on their flankages (exterior side yards).
- vi. Daylighting triangles shall be deemed to be part of a lot only for the purpose of calculating lot width, frontage, lot area and building line setbacks.

C. SPECIAL GARAGE/DRIVEWAY PROVISIONS

- i. Notwithstanding Part B of this Section, a garage may extend up to 1.37 metres (4.5 feet) in front of the front wall of a residence or the front wall of a front porch provided:
 - a) The exterior width of the garage does not exceed 50% of the width of the house, including the garage;
 - b) The exterior width of the garage does not exceed 7.62 metres (25 feet);
 - c) The front wall of the garage has a minimum setback of 6 metres plus the amount the garage extends in front of the residence (i.e. If the garage extends 1 metre in front of the residence, then the setback would be 6 m. + 1 m. = 7 metres); and
 - d) That a maximum of 10% of the homes on any one street may have the garage extending in front of the front wall of the residence or porch.

For the purpose of determining the percentage of homes is clause i) d) above, streets containing less than 10 homes may have a maximum of 1 home with a garage extending in front of the front wall of the residence or porch, subject to the above-noted regulations. For the purpose of calculating the percentage (10%) for streets containing more than 10 homes, any fraction or part of a home shall be rounded to the lower whole number.

Committee of Adjustment application A 13/03 approved April 28, 2003

- ii. Notwithstanding Part B of this Section, when a front porch is required under Clause B iii) and has a porch width that is less than 40% of the house (including the garage), the following applies:
 - a) The lot shall have a minimum frontage greater than 10 metres (33 feet);
 - b) The front porch shall have a minimum width of 3 metres (10 feet) and a minimum area of 4.6 square metres (50 square feet) and must be attached to the front wall of the residential unit;
 - c) The porch must extend a minimum of 0.91 metres (3 feet) in front of the front wall of the garage; and

- d) The maximum exterior width of the garage, measured from exterior pier to pier, shall be 7.62 metres.

For the purposes of measuring minimum front porch width of 3 metres as noted in ii)b) above, for lots with lot width equal to or less than 11 metres, the minimum porch foundation width shall be 2.6 metres and the minimum width of the roof above the porch measured between the eaves shall be 3 metres (note: maximum overhang of eaves shall be 0.3 metres), for lots greater than 11 metres in width the minimum porch foundation width shall be 3 metres.

- iii. Detached garages on lots with a residential building - one unit or residential building - semi-detached, may have a minimum setback to one side lot line of 0.3 metres.

Committee of Adjustment application A1/03 approved January 20, 2003

- iv. Driveways on lots:

- Less than 10 metres wide shall be a maximum of 3.66 metres;
- 10 metres to less than 18 metres in width, shall be limited to a maximum width of 6 metres; and
- 18 metres in width or greater, shall be permitted a maximum driveway width of 10 metres.

Notwithstanding the maximum driveway width noted above, where the external width of the garage exceeds the maximum allowable width of the driveway, the driveway shall be permitted to flare / taper from the front lot line to the external wall width of the garage, provided that the width of the driveway at the front property line maintains the maximum allowable driveway width.

D. MULTIPLE BLOCK PROVISIONS

Notwithstanding Section 6 and 15 and the applicable regulations noted in this Section, the lands within the Residential – Multiple Zone (R-7) and shown on the Plan as Block 130 shall develop with the following uses only:

- a) a seniors apartment building; and

- ii. Shall provide a minimum of 1 parking space for each unit (measuring 2.75 metres by 6 metres), including one (1) handicap space (measuring 4.4 metres by 6 metres) for every 30 units developed on Block 130 and shall comply to all other parking and loading requirements in Sections 6.11, 6.12 and 6.13 of this By-law;

- iii. Maximum of one building may have a height of four (4) storeys. All other buildings shall be three storeys or less;
- iv. Minimum building setback for a four (4) storey apartment building (not including any attached building(s) that are less than 4 storeys):
 - a) to the side lot line shall be 15 metres;
 - b) to the property line adjacent to a road shall be 15 metres;
 - c) to the rear lot line shall be equal to half the building height but in no case less than 7.5 metres;
- v. Minimum building line setback for all other building(s) 3 storeys or less shall be in conformity with the regulations in Section 6 and 15.3;
- vi. Notwithstanding the regulations noted in viii, iv and v and of this Section, the setback of the apartment building(s) to the property line of the adjacent wrecking yard shall be 25 metres; **By-law 83-2006 passed November 28, 2006 (General Amendment)**
- vii. Windows to habitable rooms within the apartment building(s) shall face towards the east and west property lines of Block 130 and not face towards the lot line adjacent to the wrecking yard;
- viii. Minimum buffer strip width adjacent to the lot line of the wrecking yard for uses defined in Section 6.15 of this By-law shall be 3 metres. The said buffer strip is within, and not in addition to, the 25-metre setback requirement to the wrecking yard as noted in Sub-section vi., above; **By-law 83-2006 passed November 28, 2006 (General Amendment)** and;
- ix. In conformity with all other applicable regulations in Section 6 and 15 of this By-law.

E. SPECIAL PROVISIONS FOR BLOCKS 131 TO 135

Notwithstanding Section 6 and 9 and the applicable regulations noted in this Section of this By-law, the lands identified as Blocks 131 to 135, inclusive within the Residential – One Unit – Low Density (R-2) zoning, shown on the Plan, the following provisions apply:

- i. All building/structures existing on day of the passing of the amending By-law, on December 10, 2002 are deemed to comply; and

 - a) Minimum Lot Frontage for corner lots shall be 16 metres and Minimum Lot Width for internal lots shall be 13.5 metres, within the R-2A zone;
 - b) Special Lot Provisions for R-5 zone – Deleted (By-law 38-2007).

For the purpose of calculating Lot Width, as defined in Section 2.77 of this Bylaw, the building line shall be 6 metres setback from the front lot line,

B. BUILDING LINE SETBACKS PROVISIONS

- i. The minimum building line setback shall be:
 - a) 5.0 metres to the residential unit;
 - b) 6.0 metres for garages (attached or detached);
 - c) 3.5 metres for a front porch;
 - d) 4.5 metres on the flankages of semi-detached and single-family corner units (exterior side yards).
- ii. Minor variations in the setback of the front wall are permitted to accommodate features such as recessed entranceways, angled windows and other such architectural features and such features will be interpreted as forming part of the front wall.
- iii. Notwithstanding Clause i), the setback of the front wall of the garage shall be equal to or greater than the setback of the front wall of the residential unit (except where noted in Clause C. i). Where a front porch is attached to a residential unit, the garage may extend in front of the front wall of the main building but shall not extend beyond the front porch and, in all cases, shall maintain a minimum 6-metre building line setback.
- iv. For the purpose of Clause iii), a front porch shall be attached to the front wall of the residential unit, covered by only a roof, have a minimum depth of 1.5 metres and shall cover a minimum of 40% of the width of the residential unit (including the garage). Where the garage extends in front of the front wall of the portion of the residential unit with a front porch but does not extend in front of the remaining portion of the front wall of the residence that does not have a porch, then the combined width of the porch and the remainder of the front wall must cover the minimum 40% of the width of the residential unit provided the front porch has a minimum width of 10 feet.
- v. Daylighting triangles shall be deemed to be part of a lot only for the purpose of calculating lot width, frontage, lot area and building line setbacks.

C. GARAGE/DRIVEWAY PROVISIONS

- i. Notwithstanding Part B of this Section, a garage may extend up to 1.37 metres (4.5 feet) in front of the front wall of a residence or the front wall of a front porch provided:
 - a) The exterior width of the garage does not exceed 50% of the width of the house, including the garage;
 - b) The exterior width of the garage does not exceed 7.62 metres (25 feet);
 - c) The front wall of the garage has a minimum setback of 6 metres plus the amount the garage extends in front of the residence (i.e. If the garage extends 1 metre in front of the residence, then the setback would be 6 m. + 1 m. = 7 metres); and
 - d) That a maximum of 10% of the homes on any one street may have the garage extending in front of the front wall of the residence or porch.

For the purpose of determining the percentage of homes in clause i) d) above, streets containing less than 10 homes may have a maximum of 1 home with a garage extending in front of the front wall of the residence or porch, subject to the above-noted regulations. For the purpose of calculating the percentage

(10%) for streets containing more than 10 homes, any fraction or part of a home shall be rounded to the lower whole number.

- ii. Notwithstanding Part B of this Section, when a front porch is required under Clause B iii) and has a porch width that is less than 40% of the house (including the garage), the following applies:
 - a) The lot shall have a minimum frontage greater than 10 metres (33 feet);
 - b) The front porch shall have a minimum width of 3 metres (10 feet) and a minimum area of 4.6 square metres (50 square feet) and must be attached to the front wall of the residential unit;
 - c) The porch shall extend a minimum of 0.91 metres (3 feet) in front of the front wall of the garage; and
 - d) Maximum exterior width of the garage, measured from exterior pier to pier, shall be 7.62 metres.

By-law 28-2004 passed March 30, 2004 (1562772 Ontario Inc. / Raceway)

26.1.274 Notwithstanding any other provisions of this By-law, the lands illustrated on the Plan forming Section 26.1.274 of Schedule 'A' (hereafter called the "Plan") of this By-law are subject to the following specific provisions, in addition to the provisions of the zones in which the parcel lies:

A. SPECIAL LOT PROVISIONS

- i. For the purposes of calculating lot width, as defined in Section 2.77 of this By-law, the building line shall be setback 6 metres from the front property line.
- ii. Minimum Lot Width/Frontage for corner lots shall be 11 metres, Minimum Lot Width/Frontage for internal lots shall be 10 metres and Minimum Lot Area shall be 300 square metres for Lots 33 to 43, inclusive within the R-5 zone as shown on the Plan.
- iii. Minimum Lot Frontage for a corner lot shall be 18 metres for Lot 7, within the R-2 zone as shown on the Plan.

B. SPECIAL BUILDING LINE SETBACKS PROVISIONS

- i. The minimum building line setback shall be:
 - a) 5.0 metres to the residential unit;
 - b) 6.0 metres for garages (attached or detached) for single family semi-detached and senior bungalow townhouse units and 9.0 metres for garages for family townhouse units;
 - c) 3.5 metres for a front porch;
 - d) 4.5 metre building line setbacks on their flankages (exterior side yards).
- ii. "Minor variations" in the setback of the front wall are permitted to accommodate features such as recessed entranceways, angled windows and other such architectural features and such features will be interpreted as forming part of the front wall.
- iii. Notwithstanding Clause i), the setback of the front wall of the garage shall be equal to or greater than the setback of the front wall of the residential unit (except where noted in Clause C i). Where a front porch is attached to a residential unit, the garage may extend in front of the front wall of the main building but shall not extend beyond the front porch and, in all cases, shall maintain a minimum 6-metre building line setback.
- iv. For the purpose of Clause iii), a front porch shall be attached to the front wall of the residential unit, covered by only a roof, have a minimum depth of 1.5 metres and shall cover a minimum of 40% of the width of the residential unit (including the garage). Where the garage extends in front of the front wall of the portion of the residential unit with a front porch but does not extend in front of the remaining portion of the front wall of the residence that does not have a porch, then the combined width of the porch and the remainder of the front wall must cover the minimum 40% of the width of the residential unit provided the front porch has a minimum width of 10 feet.

- v. Daylighting triangles shall be deemed to be part of a lot only for the purpose of calculating lot width, frontage, lot area and building line setbacks.
- vi. For the purpose of measuring the applicable Building Line Setback of a Front Lot Line that is curved, the Building Line Setback is measured from the applicable building/structure (i.e. garage, front wall or porch of the house) to a line that is tangent to the curvature of the Front Lot Line and paralleled to the applicable building/structure.

C. SPECIAL GARAGE/DRIVEWAY PROVISIONS

- i. Notwithstanding Part B of this Section, a garage may extend up to 1.37 metres (4.5 feet) in front of the front wall of a residence or the front wall of a front porch provided:
 - a) The exterior width of the garage does not exceed 50% of the width of the house, including the garage;
 - b) The exterior width of the garage does not exceed 7.62 metres (25 feet);
 - c) The front wall of the garage has a minimum setback of 6 metres plus the amount the garage extends in front of the residence (i.e. If the garage extends 1 metre in front of the residence, then the setback would be 6 m. + 1 m. = 7 metres); and
 - d) That a maximum of 10% of the homes on any one street may have the garage extending in front of the front wall of the residence or porch.

For the purpose of determining the percentage of homes is clause i) d) above, streets containing less than 10 homes may have a maximum of 1 home with a garage extending in front of the front wall of the residence or porch, subject to the above-noted regulations. For the purpose of calculating the percentage (10%) for streets containing more than 10 homes, any fraction or part of a home shall be rounded to the lower whole number.

- ii. Notwithstanding Part B of this Section, when a front porch is required under clause B) iii) and has a porch width that is less than 40% of the house (including garage), the following applies:
 - a) The lot shall have a minimum frontage of 9 metres (29.5 feet) for townhouses or semi-detached units and a minimum of 10 metres (33 feet) for single-family units;
 - b) The front porch shall have a minimum width of 3 metres (10 feet) and a minimum area of 4.6 square metres (50 square feet) and must be attached to the front wall of the residential unit;
 - c) The porch must extend a minimum of 0.91 metres (3 feet) in front of the front wall of the garage; and
 - d) The maximum exterior width of the garage, measured from exterior pier to pier, shall be 7.62 metres.

For the purposes of measuring minimum front porch width of 3 metres as noted in ii)b) above, for lots with lot width equal to or less than 11 metres, the minimum porch foundation width shall be 2.6 metres and the minimum width of the roof above the porch measured between the eaves shall be 3 metres (note: maximum overhang of eaves shall be 0.3 metres), for lots greater than 11 metres in width the minimum porch foundation width shall be 3 metres.

- iii. Detached garages on lots with a residential building - one unit or residential building - semi-detached, may have a minimum setback to one side lot line of 0.3 metres.

- iv. Driveways on lots with frontages
 - a) Less than 10 metres shall be a maximum width of 3.66 metres (but shall not include semi-detached or Family Townhouse units with two car garages or Senior Bungalow Townhouse units);
 - b) 10 metres to less than 18 metres or lots containing semi-detached/Family Townhouse units with two car garages or Senior Bungalow Townhouse units, shall be a maximum width of 6 metres; and
 - c) 18 metres or greater, shall be a maximum width of 10 metres.

Notwithstanding the maximum driveway width noted above, where the external width of the garage exceeds the maximum allowable width of the driveway, the driveway shall be permitted to flare/taper from the front lot line to the external wall width of the garage, provided that the width of the driveway at the front lot line maintains the maximum allowable driveway width.

D. MULTIPLE BLOCK PROVISIONS

Notwithstanding Section 6 and 15 and the applicable regulations noted in this Section, the lands within the Residential – Multiple Zone (R-7) and shown on the Plan as Blocks 153 to 163, inclusive shall develop with the following uses only:

- a) Residential Building – Senior Bungalow Townhouses; and
- b) Residential Building - Family Townhouses as defined in Section 2.101.5;
- c) Uses, Buildings or Structures Accessory to the Foregoing Permitted Use.

For the purpose of this Section, a “Residential Building - Senior Bungalow Townhouses” means a one storey Residential Building – Row (which may include lofts) as defined in Section 2.101.5 of this By-law, designed and built for the accommodation of the elderly, which is defined as persons aged 55 years and over.

Subject to the following additional provision:

- i. The Plan shall contain a maximum of 45 Residential Building – Senior Bungalow Townhouse units and shall be located on Blocks 153 to 161, inclusive;
- ii. The Plan shall contain a maximum of 10 Residential Building – Family Townhouse units and shall be located on Blocks 162 and 163;
- iii. The Residential Building – Senior Bungalow Townhouses and the Residential Building – Family Townhouses shall not have more than five (5) units attached in one continuous block;
- iv. The minimum Building Line Setback of a garage for a Senior Bungalow Townhouse unit shall be 6 metres and for a Residential Building – Family Townhouse unit shall be 9 metres;
- v. Notwithstanding C iv above, the minimum driveway width for Senior Bungalow Townhouse units shall be a minimum of 5 metres but shall have a maximum driveway width of 6 metres. The provision to flare or taper the driveway as per C iv above, shall still apply;
- vi. The minimum Side Yard requirement shall be 3 metres to an external lot line and 1.5 metres to an internal lot line between two Townhouse blocks.
- vii. The minimum Side Yard requirement for the flankages, (i.e. a side lot line adjacent to a public road) shall be 4.5 metres;
- viii. The minimum Rear Yard requirement for the Senior Bungalow Townhouses shall be 6 metres;

- ix. The maximum Lot Coverage of all buildings – 60% of lot area; **By-law 83-2006 passed November 28, 2006 (General Amendment)** and
- x. In conformity with all other applicable regulations in this Section, Section 6 and 15 of this By-law.

A. SPECIAL LOT PROVISIONS

- i) For the purposes of calculating lot width, as defined in Section 2.77 of this By-law, the building line shall be setback 6 metres from the front property line.
- ii) Lot Requirements
 - a) Single Family Dwelling - Minimum Lot Width/Frontage for corner lots shall be 14 metres, Minimum Lot Width/Frontage for internal lots shall be 10.6 metres and Minimum Lot Area shall be 338 square metres inclusive for Lots 1 to 62 and Blocks F, G and H within the R-5 zone as shown on the Plan.
 - b) Semi-detached Dwelling - Minimum Lot Area shall be 260 square metres, for Blocks 63 to 74.
- iii) That the end residential lots / units abutting Church Street, shall be oriented to have their front façade facing Church Street. For the purposes of this provision, front façade shall include doorway and entranceway, which shall be useable.
- iv) Daylighting triangles shall be deemed to be part of a lot only for the purpose of calculating lot width, frontage, lot area and building line setbacks.
- v) That notwithstanding C)iv) below, the minimum driveway width for a semi-detached dwelling shall be a minimum of 5 metres but shall have a maximum driveway width of 6 metres. The provision to flare or taper the driveway as per C)iv) below, shall still apply.

B. SPECIAL BUILDING LINE SETBACKS PROVISIONS

- i. The minimum building line setback shall be:
 - a) 5.0 metres to the residential unit;
 - b) 6.0 metres for garages (attached or detached) for bungalow townhouse units;
 - c) 3.5 metres for a front porch;
 - d) 4.5 metre building line setbacks on their flankages (exterior side yards).
- ii. "Minor variations" in the setback of the front wall are permitted to accommodate features such as recessed entranceways, angled windows and other such architectural features and such features will be interpreted as forming part of the front wall.
- iii. Notwithstanding Clause i), the setback of the front wall of the garage shall be equal to or greater than the setback of the front wall of the residential unit (except where noted in Clause C i). Where a front porch is attached to a residential unit, the garage may extend in front of the front wall of the

main building but shall not extend beyond the front porch and, in all cases, shall maintain a minimum 6-metre building line setback.

- iv. For the purpose of Clause iii), a front porch shall be attached to the front wall of the residential unit, covered by only a roof, have a minimum depth of 1.5 metres and shall cover a minimum of 40% of the width of the residential unit (including the garage). Where the garage extends in front of the front wall of the portion of the residential unit with a front porch but does not extend in front of the remaining portion of the front wall of the residence that does not have a porch, then the combined width of the porch and the remainder of the front wall must cover the minimum 40% of the width of the residential unit provided the front porch has a minimum width of 10 feet.
- v. For the purpose of measuring the applicable Building Line Setback of a Front Lot Line that is curved, the Building Line Setback is measured from the applicable building/structure (i.e. garage, front wall or porch of the house) to a line that is tangent to the curvature of the Front Lot Line and paralleled to the applicable building/structure.

C. SPECIAL GARAGE/DRIVEWAY PROVISIONS

- i. Notwithstanding Part B of this Section, a garage may extend up to 1.37 metres (4.5 feet) in front of the front wall of a residence or the front wall of a front porch provided:
 - a) The exterior width of the garage does not exceed 50% of the width of the house, including the garage;
 - b) The exterior width of the garage does not exceed 7.62 metres (25 feet);
 - c) The front wall of the garage has a minimum setback of 6 metres plus the amount the garage extends in front of the residence (i.e. If the garage extends 1 metre in front of the residence, then the setback would be 6 m. + 1 m. = 7 metres); and
 - d) That a maximum of 10% of the homes on any one street may have the garage extending in front of the front wall of the residence or porch.

For the purpose of determining the percentage of homes in clause i) d) above, streets containing less than 10 homes may have a maximum of 1 home with a garage extending in front of the front wall of the residence or porch, subject to the above-noted regulations. For the purpose of calculating the percentage (10%) for streets containing more than 10 homes, any fraction or part of a home shall be rounded to the lower whole number.
- ii. Notwithstanding Part B of this Section, when a front porch is required under clause B) iii) and has a porch width that is less than 40% of the house (including garage), the following applies:
 - a) The lot shall have a minimum frontage of 8.4 metres (27.5 feet) for townhouses, 9.0 metres or semi-detached units and a minimum of 10 metres (33 feet) for single-family units;
