4. Describe your Drinking-Water System

The Township of Woolwich owns and operates the Heidelberg Distribution System, including pipes, valves, hydrants and residential meters. The distribution system serves approximately 225 connections (includes 14 residential connections in Wellesley Township) with a population of approximately 675. The Heidelberg Distribution System does not serve any industrial properties. There are 4 hydrants on the system that are used for swabbing purposes and are not capable of providing fire protection. The Heidelberg Distribution System receives water from the Heidelberg Well Supply System. The Heidelberg Well Supply System is owned and operated by the Region of Waterloo. The Heidelberg Distribution System also provides water to the Township of Wellesley.

The Township of Woolwich’s distribution system does not provide treatment to the water; therefore, there is no chlorine boosting, ultraviolet (UV) irradiation, secondary disinfection, and pressure boosting or pressure control within the control of the water distribution system.

5. List all water treatment chemicals used over this reporting period

Water treatment is the responsibility of the Region of Waterloo. The Region of Waterloo reports all the treatment chemicals used via their annual Water Quality Reports. The Township of Woolwich disinfects all parts, material and pipe during new installation and repair.
