

# Notice of Public Open House

## STOCKYARDS SECONDARY PLAN & CLASS ENVIRONMENTAL ASSESSMENT

# TOWNSHIP OF WOOLWICH

The Township of Woolwich has initiated the preparation of a Secondary Plan and Class Environmental Assessment (EA) for the Stockyards Industrial/ Commercial Area and King 86 Power Centre. As part of the Secondary Plan process, a public open house to review options will be held on **Wednesday, January 10, 2018** at 7:00 pm in the Council Chambers at the Township offices at 24 Church Street West, Elmira.

The purpose of this open house is to review preliminary land use, transportation, servicing and design options for the Stockyards Area, to collect feedback and input on appropriate directions for the future of this area.

Project details and information regarding planned public workshops and open houses will be available on the Township's website ([www.woolwich.ca](http://www.woolwich.ca) – Navigate to Township Services / News Room / Ongoing Planning Items / Stockyards Settlement Plan and Environmental Assessment).

The Secondary Plan is being undertaken in accordance with the requirements of a Municipal Class Environmental Assessment (October 2000, as amended in 2007, Section A.2.9, Integration With the Planning Act). The Class EA process includes public and review agency consultation, an evaluation of alternatives, an assessment of the anticipated effects on the environment, and identification of reasonable measures to mitigate any adverse effects.

The Township and The Planning Partnership are very enthusiastic about the opportunity of working with the entire community on this important project, and invite you to participate and provide your input to help shape the long-term vision for the Stockyards Area.

Comments and information regarding this project are being collected to assist the Secondary Plan Team in meeting the requirements of the Environmental Assessment Act and determining the overall scope of this project. Except for personal information, all comments will become part of the Public Record and may be used in the Environmental Study Report.
