## MESSAGE FROM MAYOR SHANTZ

This budget represents a transparent collaboration between Council, staff and taxpayers. In establishing a process for the first 'Strong Mayor's Budget' in Woolwich, I wanted to ensure that Council and residents were able to contribute early on. I asked staff to provide a very preliminary analysis

of how the status quo would look, what we would need to rapidly move toward a budget that sets us on a good fiscal trajectory and something in between. We had a number of meetings for Council to discuss options, and for residents to speak to those options. We received input on our Engage platform and through communication to their Councillors and me. Our focus has been on maintaining strong core services and ensuring long term sustainability. Thank you to everyone who contributed.

We heard concerns about staffing, administration and efficiency. With additional time to analyze the financial numbers, our base budget increase is about \$3.05 per month for the average household or 2.9% which falls closely in line with inflation. In addition, our Chief Administrative Officer has committed time to take a close look at the organizational structure with an eye toward improving interdepartmental communication, reducing

redundancy and reporting back to Council in 2026 on opportunities for savings.

In 2025, we have been implementing a new financial reporting system which has allowed more in-depth and accurate analysis of our reserves, spending and revenue. The system is still being implemented, but through the past year it has allowed us to look more closely at our reserves and financial stability. Council heard that our corporate fiscal health is in jeopardy. While we are not in dire straits, we do need to quickly reset our path forward. We have about one quarter of the reserves that a healthy community would expect to have.

To that end, most of the remainder of the levy increase in the budget (5.3% or about \$5.62 per month) is to begin to move toward more healthy reserves to support things like the winter control budget, operating contingency, infrastructure levy, financial reporting discrepancies and fire equipment reserve.

In 2026 we will continue to advance affordable housing options, develop a multi-year budget and a ten-year capital forecast for our assets and investments.

Council meetings are scheduled for January 13 and 27 where we will hear any additional feedback. Council amendments must be considered before February 5 according to the Strong Mayor legislation.

It's impossible to build a budget that everyone will be happy with, but I believe that together, we have achieved a balance between affordability with sustainability, while protecting the services you rely on and preparing for the years ahead. You will find details in the pages that follow.

On behalf of Council and myself, thank you to staff for your analysis and for doing the hard work of looking at options and opportunities to ensure Woolwich remains a strong, well managed community.

Sandy Shantz

Mayor  
Township of Woolwich

## STRONG MAYOR BUDGET

On May 1, 2025, Ontario Regulation 580/22 was amended extending strong mayor powers to several municipalities, including the Township of Woolwich. These powers include a duty for the Mayor to propose a budget before February 1 each year.

On September 23, 2025, Mayor Shantz directed the Township's Chief Administrative Officer and the Director of Financial Services/Treasurer to assist her in developing the Mayor's budget based on public and Council's feedback. This direction is set out in Mayoral Instrument 2025-005 and may be viewed on the [Mayor's](#) page on the Township website. The details are shown below:

---

*I, Sandy Shantz, Mayor of the Township of Woolwich, direct the Chief Administrative Officer and the Director of Financial Services/Treasurer to:*

- 1. Present updated annual grant applications and funding requests from local boards and committees to Council on October 7, 2025.*
- 2. Prepare a preliminary staff draft of the operating and capital budgets and review fees and charges on November 4, 2025, for initial public and Council input, with the following priorities:*

- a. Infrastructure maintenance and renewal, with an emphasis on roads;*
- b. Financial sustainability, including building reserves, limiting the use of debt, preparing for future growth and reviewing alternate sources of revenue; and*
- c. Community building, including affordable housing and recreation opportunities.*

- 3. Support me in developing the Mayors Budget to be proposed on January 6, 2026, based public and Council feedback.*
- 4. Convene budget meetings in January for Council to consider the Mayor's Budget and allow for any Council amendments within the required 30-day timeframe when the Woolwich budget will be deemed adopted (unless shortened by Council).*

*This Mayoral Direction shall come into effect on September 23, 2025.*

## BUDGET TIMELINES

The following budget schedule has been proposed for 2026 Budget Adoption:

Budget Priorities discussion with Council	9 Sep. 2025
Mayor Shantz's Budget Direction	23 Sep. 2025
Board and committee budget, grant requests, fees and charges	7 Oct. 2025
Budget Discussion touchpoint and public feedback on operating and capital budgets #1	4 Nov. 2025
Budget Discussion touchpoint and public feedback on operating and capital budgets #2	18 Nov. 2025
Budget Discussion touchpoint and public feedback on operating and capital budgets #3	2 Dec. 2025
Mayor's Proposed Budget	6 Jan. 2026
Budget presentations and public delegations	13 Jan. 2026
Budget Amendment Meeting	27 Jan. 2026
Council may request additional Budget Meetings if required	TBD
Deadline for budget amendments *cannot be extended	5 Feb. 2026

After Mayor Shantz proposes her budget, there are several ways the rest of a strong mayor budget process can proceed.

- The shortest process would be if Council makes no amendments and passes a resolution to shorten the 30-day period for amendments. In this case, the budget is deemed adopted on the day set out in the resolution.

- Council may also want to vote on amendments up to the February 5<sup>th</sup> deadline. If Mayor Shantz is satisfied with the amendments, she could shorten her veto period to February 5, 2026, and the budget could be approved the same day.
- The longest process would involve Council making one or more amendments, the Mayor vetoing amendments and Council meeting to vote on overriding the Mayor's veto's. If all the timelines in the legislation are extended to the maximum days allowed, the latest the budget would be adopted is March 4, 2026.

The legislative timelines can be shortened by the Mayor or Council but cannot be extended: March 4 is the last possible date for approval.

## ECONOMIC OVERVIEW

### CANADIAN ECONOMY

Recent information from Statistics Canada showed that Canada's annualized growth has rebounded in recent months growing by 2.6% annually in Q3 2025. While it should be noted that GDP per capita has been flat or declined in most recent years. GDP per capita is a measure which may better represent the perceived impact on Canadians.

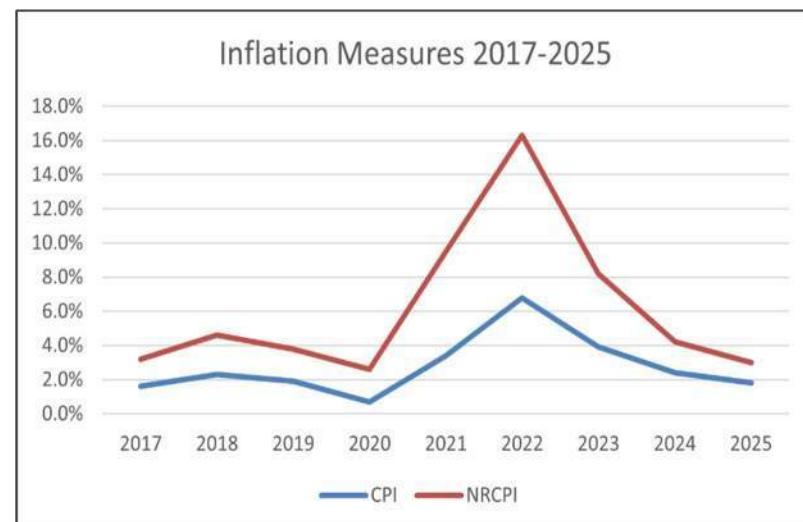

### INFLATION

A major concern over the past few years has been the high inflationary environment, reaching a 40-year high peak in mid-2022. Inflation is cumulative, meaning that even slowing inflation does not represent a decrease in prices. Municipalities have struggled to adapt to this higher inflationary environment while maintaining affordability for residents. Inflation has trended down in recent years with CPI standing at 2.2% as of October 2025. It is important to remember that inflation is cumulative, and a lower inflation rate represents a slowing of price increases, not a price decrease.

### NRCPI (Non-residential construction price index)

While CPI measures consumer price changes it does not accurately reflect the capital work the Township undertakes. The non-residential construction price index (NRCPI) measures the costs of construction for non-residential buildings. This index is a far better measure of costs in our capital program.

While CPI has been very high in recent years, the NRCPI has trended even higher. Inflating Township costs to CPI will fail to meet the cost challenges of the capital program which experiences different levels of inflation. The chart below outlines this difference:

## INTEREST RATES

Interest rates (monetary policy) are used to either stimulate the economy (low rates) or to restrain inflation (high rates). After reaching high levels in recent years, interest rates have been cut multiple times in 2025 with the overnight target rate now standing at 2.25% (as of December 2025) down from a high of 5.0% in June 2024.

Interest rates impact the Township in two ways.

- Reduced investment income.** The rate of return on our investments is negatively impacted by declining rates. Our bank interest is immediately reduced, while longer-term investments returns are reduced because maturing investments cannot be reinvested at previously high rates.
- Lower debt interest costs.** The interest rates affect the cost of debt financing. Although current borrowing costs are fixed, lower interest rates will reduce the cost of future debt issues.

It should be noted that the Township historically holds more investments than it does external debt. Therefore, falling rates will have an overall negative impact on its financial position.

## AMERICAN TRADE UNCERTAINTY

Since the 2024 US Presidential election, the CAD / USD exchange rate has declined. This means that purchases

denominated in US dollars, such as heavy equipment and software, could see an increase in cost because of the higher exchange rate.

In addition, there has been significant disruption on international trade related to tariffs and trade agreements which could increase financial uncertainty for the Township.

## GROWTH PRESSURES

The population in the Township of Woolwich is expected to grow to 51,204 people and 17,395 households by 2051. This growth will almost double the 2021 recorded population. In addition, with the recent expansions to the settlement areas and direction from Provincial government to remove barriers and build housing the population has the potential to increase even more. Most of the growth will be accommodated in greenfield areas, within the urban settlement areas, through the development of new subdivisions. These subdivisions will add additional demand for programs, services, equipment and long-term maintenance costs for such things as roads, trails, facilities and other infrastructure. Phasing and staging of land development will be crucial for the ability of the Township to manage this growth and continue to provide infrastructure and services to meet the demands of the increased population. The Township must also ensure that employment land, institutional land and community spaces are planned for and supported to provide a balance of land uses, jobs and services.

The Township adheres to a growth should pay for growth philosophy. Where the financial burden of new growth should not be borne by existing residents where possible. To the extent possible the Township relies on development charges (DC's) to fund the infrastructure needs of growth and assessment growth to cover operating needs. However, it should be noted that DC's

do not fund the full costs of growth infrastructure, and some forms of development such as accessory residential dwellings are exempt from DCs. Therefore, some costs must be partially burdened by existing residents.

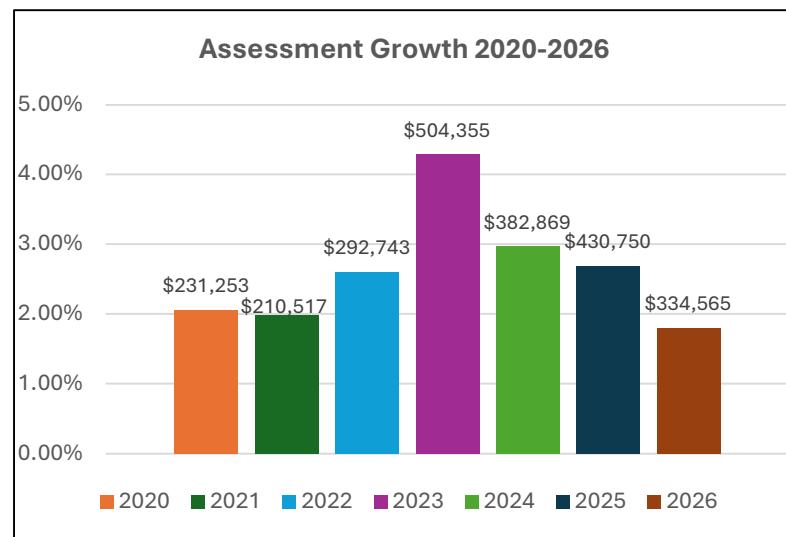

In addition, future replacement costs of development funded assets must be eventually shouldered by the tax base. There is not a clear understanding between increased service needs related to growth and the related assessment revenue. This puts pressure on the Township to maintain service levels to respond to the demands of growth and to continue to provide services and programs to new residents.

---

## ASSESSMENT GROWTH

Actual growth in the Township has not been as high as previously forecasted. The most recent DC study anticipated over 300 units in the Township annually starting in 2024. Recent data for 2024 showed growth of approximately 131 units with an estimated 404 units forecast for 2025. While the units built for 2025 are much higher than in recent years, the average of 2024 / 2025 is still below the DC study estimates. Recent announcements to reduce immigration levels and potential changes to development related legislation adds to the uncertainty in growth and development.

Staff are currently projecting new assessment growth for 2026 at approximately 1.86%, which translates into an additional \$334,565 in property tax revenue. This is the lowest % assessment growth in the past 6 years. Staff are aware of several developments which are planned to be constructed over the next few years, which will increase our assessment growth. The Township's assessment growth history can be seen in the graph below (it should be highlighted that 2023 was a catch-up year for MPAC hence the significant increase that year):

## BUDGET STRATEGY

The Township's current approach to budgeting has remained largely unchanged whereby it leverages a manual process, using linked excel spreadsheets, which poses scalability challenges. Previously, Finance staff resources have not existed to perform more detailed financial analysis with most budget and analysis work currently performed by non-finance staff in each department. New budget software is required to ensure that staff can provide Council with the necessary financial information and analysis to facilitate discussion.

As of 2024, a fundamental shift has begun in the budgeting process with the allocation of new staffing resources. As a result, work is being done on the implementation of new financial software, new budgeting software, changes to the chart of accounts and an improved long-term financial planning framework. This is a significant undertaking which will take many years of transformational change and requires a commitment to change across the organization.

## FUTURE WORK

While long-term changes will take years to fully implement, incremental improvements or “quick wins” have been identified in the budget process which can be implemented more quickly. Financial Services has begun

undertaking a variety of budget improvement initiatives including:

- A long-term financial framework approved in 2024 provides an overall financial roadmap.
- Updates to several finance policies such as investments, debt, and future policies are under development.
- Onboarding of new staff including a permanent Senior Financial Analyst and a contract Development Financial Analyst to support growth and development.
- Creation of a new initiative justification form to evaluate budget submissions
- Improving the understanding of utility revenue and rate setting
- Moving towards development of a multi-year capital budget
- Creating debt and reserve forecasts to support long term decision making
- Development of a cash flow model and move towards more active cash management to understand funding needs
- Improved salary budget models to help understand staffing financial implications
- Reviewing current cost allocation models to determine their effectiveness
- New finance software implementation including changes to the chart of accounts and

## improvements and efficiencies to financial processes

With new staff, there has been improved analysis of internal operating and capital budgets which identified several structural budget issues. This analysis provided a greater insight into the Township's budget and the 2026 budget proposes several corrective measures to rectify these issues and improve the long-term fiscal health.

---

## LONG TERM FINANCIAL FRAMEWORK

The Township approved a Long-Term Financial Framework (LTFF) in 2024 as a roadmap to long term sustainability. The framework is intended to serve as a guide for developing policies, budgets, and integrating financial studies into financial planning reporting.

The framework focuses on three financial pillars.

- Sustainability. Maintaining a strong financial position over the long term. This requires long-term planning and funding.
- Adaptability. Having the financial capacity to respond to uncertainty risks and to take advantage of opportunities. This requires strong reserves and debt capacity.
- Responsibility. Ensures tax and ratepayers are getting the best value for money. This ensures that services are performed efficiently and for the best cost over the long term.

---

## SUSTAINABILITY

Maintaining a strong financial position over the long term requires long-term planning and funding plans. It also requires strong capital reserves to ensure funding is available to meet future infrastructure needs.

Considering funding and resourcing constraints, the Township has historically taken a short-term perspective with single year operating and capital budgeting with little planning or savings for future years.

Staff are working on developing necessary long-term financial plans including a funded 10-year capital plan and a fiscal growth framework. This long-term approach will enable the Township to understand its long-term funding needs and begin to address these through building up reserve balances. It will also be important to

consider multi-year operating budgets to anticipate potential impacts beyond the next fiscal year.

## ADAPTABILITY

Adaptability involves having appropriate financial resources to respond to emerging financial risks and to take advantage of potential opportunities. Without sufficient reserve balances, the Township is less able to respond to economic uncertainty and has limited ability to take advantage of emerging opportunities.

Reserves and reserve funds have been trending lower in recent years, however corrective action taken in the 2025 and 2026 budgets have begun to address these needs. This included an increase in the equipment reserve transfer for fire vehicle replacement, increases to operating and winter control contingency reserves reflected in the 2026 budget.

## RESPONSIBILITY

The Township has maintained very low tax rates and is among the lowest of its comparators. While this may appear to be a positive fact for taxpayers in the short term, this approach has caused long term fiscal harm.

The Township has taken a short-term approach to budgeting, which has meant depleting reserves each year to fund essential operating or capital activities without replenishing them.

The 2026 budget focuses on maintaining core services while providing necessary funding to reserves and reserve funds to ensure long term fiscal sustainability. This long-term approach will reduce anticipated deficits in future years and avoid the need to for reactive tax increases in future years.

## PUBLIC BUDGET CONSULTATION

For the past three budget years, Staff solicited public feedback through an online and paper survey on the budget. A summary of the results is as follows:

Based on an analysis of the survey responses, several recurring themes emerged, reflecting resident priorities and concerns. Comments are grouped by theme below:

### 1. Dissatisfaction with Tax Increases

- Overwhelming frustration with the scale and frequency of tax increases; many cite increases of 20-30% over the past few years while not seeing corresponding improvements in services.
- Several residents state taxes are becoming "unaffordable," especially for seniors, single-income families, and lower-income households.
- Many respondents request a freeze or reduction in property taxes and call for spending cuts instead of higher rates.
- Perceived lack of alignment between rising taxes and visible improvements: *"Taxes keep going up, services seem to be going down. Roads are terrible."*

### 2. Road and Infrastructure Maintenance

- Road condition is the single most cited issue by residents. Many describe local roads as "terrible", "embarrassing", or "unacceptable," with

specific roads (Elmira, Barnswallow, Arthur Street, Conestogo) named repeatedly.

- Residents demand priority for fixing and maintaining roads over new projects or non-essential spending.
- Concerns about snow removal, pothole repair, outdated sewers, and bridge closures are repeated throughout.
- Many question where infrastructure levies have gone given ongoing deterioration.

### 3. User Fees: Support, Concerns, and Limitations

- Considerable support for "user pays" models—many agree that those who use services like swimming lessons, room rentals, and permits should contribute to those costs.
- Equally common are concerns about affordability and accessibility: residents worry increased fees could exclude low-income or marginalized groups from recreation and essential programs.
- Several recommend means-tested or sliding scale fees, especially for recreation (swimming lessons widely considered an essential, not a luxury).
- Some state that permits and developer fees are already too high, potentially harming affordability and growth.
- Several responses question the effectiveness of shifting fees to reduce taxes, suggesting it just "moves money around" with little real savings.

#### 4. Staffing, Administration, and Efficiency

- Widespread concern that staffing and administration costs are excessive; many cite the “top-heavy” township office or “overblown” salaries and expansion of bureaucratic or non-frontline roles.
- Calls for wage freezes, hiring freezes, and tighter scrutiny on office expenditures over front-line services.
- Many express a desire for greater efficiency, accountability, and transparency in township spending.

#### 5. Fairness and Equity Across Communities

- Consistent feeling of neglect in smaller communities (especially Breslau, Conestogo, Winterbourne) compared to Elmira and St. Jacobs, both in capital investment and ongoing services.
- Calls for better allocation of funds across all township areas, not just larger towns.

#### 6. Desire for Transparency and Communication

- Residents frequently cite the need for clearer communication: requests for detailed budget breakdowns, clarity on how levies and user fees are spent, and more opportunities for public input.
- Skepticism about whether user fees are truly directed to offset taxes, or how collected funds are managed.

#### 7. Approaches to Community Spending and Budget Priorities

- Many requested prioritization of “needs over wants”: essentials like roads, utilities, health, and safety before spending on “extras” (some specifically mention climate initiatives, DEI roles, community events).
- Some support green initiatives and sustainability, but most favor partnerships, grants, and private/nonprofit involvement over tax-funded programs.

#### 8. Calls for Economic Development and Amenities

- Several responses urge council to support economic development: attracting more and better businesses (especially dining, entertainment, shopping), particularly in under-served areas.
- Desire for more local amenities and recreational options (especially in Breslau and growing areas).

## OPERATING BUDGET OVERVIEW

Staff are continually striving to deliver quality service while maintaining affordability for residents. This goal is made more difficult trying to manage significant growth pressures and navigating a changing political landscape.

Woolwich continues to face upward pressures resulting from the historic inflationary environment. Unsustainable budget reductions in previous years have led to a number of structural deficits and have made the 2026 Budget development an incredibly challenging budget to address these defects while keeping tax rates low.

The 2026 Budget proposes a 7.8% total tax increase. This increase is made up of 6.8% base tax levy and a 1% addition to the infrastructure levy. This also includes 2.8% set aside for contribution to other reserves such as winter control, operating contingency and fire equipment reserves. There is also a 2.1% contribution to address structural operating deficits in winter control and labour and equipment which will help avoid future operating shortfalls. The highlights of the operating budget can be found in **Appendix 1 – Summary of Proposed Budget Increase (Pg. 21)**

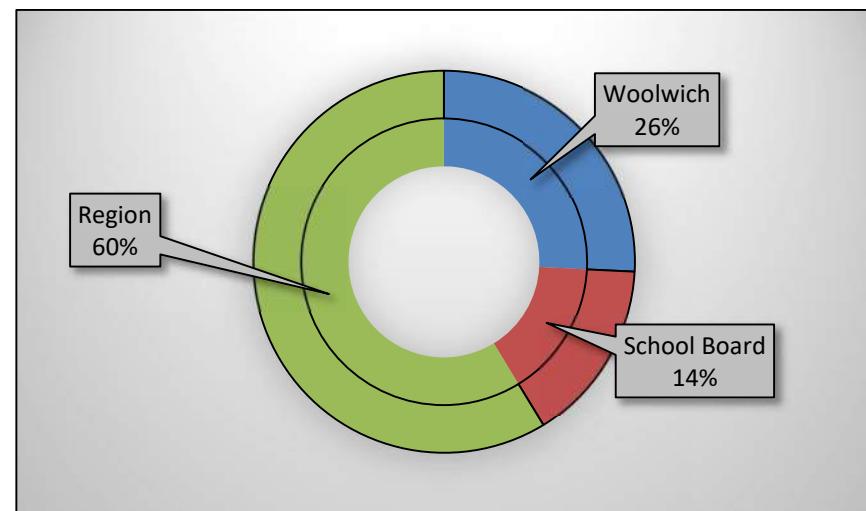

As part of the budget process, staff continue to seek out efficiencies. **Appendices 2 and 3 (Pg. 22 and 23)** show a list of reductions, revenues and efficiencies that staff were able to find which brought the base tax levy increase to below

3%. The 2026 budget is a fiscally responsible budget that continues to deliver high quality services while also positioning the Township for long term financial stability.

**Appendix 4 – Operating Budget Summary (Pg. 24)** shows the budget information in more detail. The total proposed tax levy represents a 7.8% increase over the 2025 levy when assessment growth is accounted for.

## TAX BREAKDOWN

The following chart shows the breakdown of Municipal taxes and gives a perspective as to the impact Township property tax has on our residents. The chart reflects the actual breakdown of taxes for 2025, which shows that for every dollar paid in taxes, Woolwich receives \$0.26.

## STAFFING COSTS

One of the biggest budget cost drivers continues to be human resource costs, which are required to maintain and enhance our public service delivery. Municipal operations are service driven and therefore human resource costs account for a considerable proportion of our overall operating expenditures, not including special levies.

The staff costs included in the above graph relate to three main drivers:

1. The Pay Equity and Market Study review from 2022 but which was phased in over four years.
2. The movement of staff along the existing pay band. For example, newer hires are typically hired at lower or mid parts of the pay band. As they gain experience, they move along the existing job band until they hit the maximum job rate
3. Cost of living adjustments (COLA) these are inflationary increases given to reflect the rising cost of living adjustments. It is important to note that the with the recent high inflation, COLA increases have been below inflation for a considerable number of years.

Through previous budget processes, Council asked that future budget material include a comparison of full-time

positions in each departmental budget area from the previous year.

**Appendix 5 – Position Continuity (Pg. 27)** shows the changes in staff levels over the past number of years.

**Appendix 6 – Salary Budget Percentage (Pg. 28)** shows the breakdown of staffing costs compared to budget over time.

### New Staff Positions

Staff continually review operations to ensure efficiency while limiting the need for new staff. Despite the high levels of growth the Township is experiencing, the 2026 budget does not recommend any new tax supported staff positions.

However, due to the level of development and assumed assets in subdivisions there has been an increased need to ensure developer contributed assets such as new roads and infrastructure in subdivisions are at a sufficient quality before the Township takes responsibility. The 2026 budget recommends an additional development engineering technologist / inspector to ensure the quality assets being assumed. This position will save the Township considerable money and repairs and maintenance over the long term. As a development related position, this is being funded through fees paid directly from developers as a result there is no tax rate impact for this position. Further information on this position can be found in **the Department Summary – Development Services (Pg. 135)**.

## OPERATING REVENUE

### FEES AND CHARGES

Staff have recently undertaken a review of fees and charges culminating in the amendments in Report F19-2025. The following analysis was performed in the development of these By-laws:

- Review of Current Legislation – to ensure that all departments understand and agree on the implications of recent legislation
- Municipal Fees and Best Practices Design Comparisons – to provide a financial context for fee adjustments (market comparisons of Township's fees and charges)
- Recommended Fee and Charge Refinements – recommended refinements to improve fee structure.
- Fees and charges have generally been increased by a 3% inflationary amount where reasonable and are often rounded to the nearest whole number.
- Other charges have increased or been added where a specific need has been identified or is in line with best practice.

### INVESTMENT AND OTHER REVENUE

Interest rates have declined several times in 2024 / 2025, from a high of 5% in early 2024 to the current overnight of 2.25% (as of December 2025). It is anticipated that rates will stabilize in 2026.

In 2024, the budget for investment income was \$475,000. Staff reduced the budget for investment income by \$100,000 to \$375,000 in 2025. While interest rates have declined significantly, through more active management with the new Senior Financial Analyst position, the Township has increased its available cash balances and investment returns on surplus cash. It is estimated that the 2025 investment income will exceed budget and Staff feel comfortable that the 2026 budget could be increased by an additional \$75,000 with minimal risk.

Best practice suggests that investment income remain relatively static and surplus investment income be transferred to reserves. The current interest rate environment is more stable than previous years and this approach could be considered in future years to avoid impacting the tax base with interest rate changes.

### 2025 SURPLUS / DEFICIT

In report F16-2025, staff reported a tax supported operating deficit of \$426,738. This was driven by higher than budgeted salaries and wages in fire and RCS as

well as labour and equipment cost allocation deficits. These deficits were offset by higher than expected interest revenue in 2025.

## WINTER CONTROL

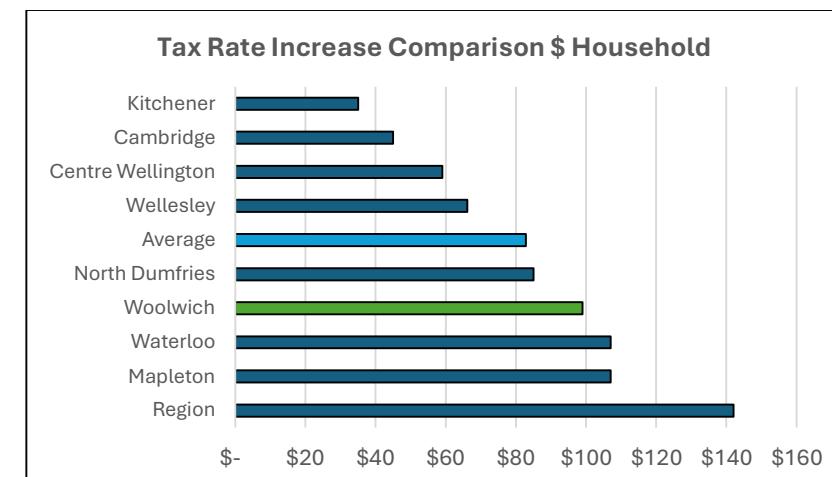

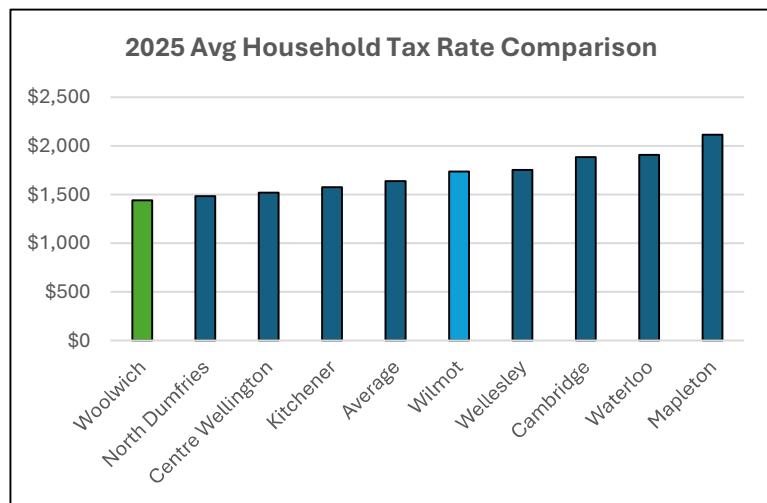

The most recent Q3 2025 financial report shows significant deficits in winter control with an expected 2025 deficit of \$900,000 with no winter control reserve to draw from. Staff performed a historical analysis and determined that this area has been chronically under budgeted for several years. The extreme weather experienced in 2025 amplified this situation and resulted in large deficits. The 2026 budget addresses these issues with a \$100,000 increase in the winter control budget as well as a \$200,000 contribution to the winter control reserve. More details on these initiatives can be found in the **Department Summary – Financial Services and Infrastructure Services Section (Pg. 151)**.

## TAX RATE COMPARISON

While it can be difficult to compare tax rates due to different factors present in municipalities, the Township's tax rate remains low compared to its peers. The table below shows the residential tax rate comparison based on the average assessment value.

Below is a 2025 proposed tax rate increase comparison using publicly available information per household.

Woolwich's household increase is slightly larger than the average but well below the impact in Waterloo which had a lower % tax rate increase. This stresses the importance of using total tax impacts rather than relying solely on percentage increases. It should also be noted that even with the 2026 increase the Township tax rate will remain well below its peers in the average tax cost per household.

*Note: Wilmot's tax increase is not known at the time of publication.*

## Appendix 1 - Summary of Proposed Budget Increase

	Package Summary Form	2025 Net Cost	2026 Net Cost	2026 Budget Increase	%	Household Annual Cost	Monthly Cost \$	Notes
<b>1 - Base Department Budgets</b>								
	Chief Administrative Officer	\$ 501,119	\$ 516,029	\$ 14,910	0.1%	\$ 1.05	\$ 0.09	Inflationary increases

## Appendix 2 - Budget Reductions (List A)

Department	Division		Base Cost	Net Tax Impact	Household Impact (\$)	Notes
Development Services	Planning	Operating/Material Costs, Miscellaneous	\$ -	0.0%	\$ -	Funding for a Termite 5-Year Program which is now complete. Removed project but was funded from operating contingency
Development Services	Planning	Operating/Material Costs, Office Supplies and Miscellaneous	\$ (1,500)	-0.01%	\$ (0.11)	Reduction in Office Supplies and Miscellaneous expenditures
Development Services	Planning	External Contracts, Peer Reviews	\$ (69,000)	-0.4%	\$ (4.88)	External contract that has not been used in last 2 years
Development Services	Planning	Fees and Charges, Zone and Development Fees (Revenue)	\$ (37,500)	-0.21%	\$ (2.65)	Increased revenues to align with comparator expectations for 2026
Development Services	Planning	Staff Costs, Training and Development, Mileage	\$ (200)	0.00%	\$ (0.01)	Reduction in staff costs for training, development and mileage. Removal of a staff person attending the OPPI conference
<b>TOTAL EFFICIENCIES / BUDGET REDUCTIONS</b>			<b>\$ (108,200)</b>	<b>-0.60%</b>	<b>\$ (7.65)</b>	
Development Services	Planning	Elmira Downtown Study	\$ 20,000	0.11%	\$ 1.41	Additional funding request for 2026
Development Services	Planning	Other Costs, Heritage Committee	\$ 1,000	0.01%	\$ 0.07	Additional funding request for 2026
<b>TOTAL ADDITIONS TO BASE BUDGET</b>			<b>\$ 21,000</b>	<b>0.01%</b>	<b>\$ 0</b>	
<b>NET IMPACT TO BASE BUDGET</b>			<b>\$ (87,200)</b>	<b>-0.60%</b>	<b>\$ (7.58)</b>	

## Appendix 3 -Budget Reductions (List B)

Department	Division		Base Cost	Net Tax Impact	Household Impact (\$)	Notes
		<b>Total, Insurance Adjustments, All GLs</b>	<b>\$ (16,681)</b>	<b>-0.09%</b>	<b>\$ (1.18)</b>	
Corporate Services	Enforcement	Staff Costs, Part-Time Salaries	\$ (1,180)	-0.01%	\$ (0.08)	Reduce advanced winter parking notices on cars from 2-weeks to 1-week, overall reducing time spent on advanced notices
Corporate Services	Overhead	OMP Grant Revenue Reduction	\$ 35,600	0.20%	\$ 2.52	Provincial Grant funding source reduced for 2026
Corporate Services	Enforcement	External Contracts, Legal	\$ (5,000)	-0.03%	\$ (0.35)	Long-standing enforcement issue that is likely to result in additional future legal fees if Township continues to pursue
Corporate Services	IT	Cell Phones	\$ (7,000)	-0.04%	(0.50)	Cell phone plan savings
Council	Council	Operating/Material Costs, Meeting Expenses	\$ (1,200)	-0.01%	\$ (0.08)	Removal of the Zoom 1-800 number which does not require WiFi. No Council users in a 2-year period, few Committee of Adjustment users.
Council	Council	Special Events (Expense, Revenue)	\$ (1,250)	-0.01%	\$ (0.09)	Several initiatives to reduce costs for Council special events and increased revenue
Council	Council	Operating/Material Costs, Collaboration Initiatives	\$ 3,350	0.02%	\$ 0.24	Chamber of Commerce doctor recruitment request. Previously funded through operating contingency reserve (3 year funding cycle)
Development Services	NA	Overhead Allocation			\$ -	Figure applied in Financial Statements; Approx \$30K added for F2026
Financial Services	Management & Budget	External Contracts, Professional Services	\$ (2,500)	-0.01%	\$ (0.18)	Reduction in budget to better align with historical spend
Financial Services	Management & Budget	Other Revenues, Investment Income	\$ (85,000)	-0.47%	(6.01)	Increase budget to reflect higher income projected from managing investments internally
Financial Services	Revenue	Increase in Penalties and interest	\$ (35,000)	-0.28%	(3.54)	Based on 2025 actuals seems to be understated
Financial Services	Revenue	Increase supplemental revenue	\$ (20,000)	-0.28%	(3.54)	2025 actuals was low, hoping for increase in 2026
Fire Services	Admin	Fire Training Officer Grant	\$ (80,000)	-0.44%	(5.66)	Did not include grant revenue
Infrastructure Services	Eng Admin	Fees and Charges, Zone and Development Fees	\$ (11,000)	-0.06%	(0.78)	Increase in Fees and Charges to better reflect increased user fees for 2026 (revenue)
Infrastructure Services	Eng Admin	Other Cost, Traffic Counts and Calming	\$ (20,000)	-0.11%	(1.41)	Removal of the installation of a Stage 2 Speed Table offset with provincial funding
Infrastructure Services	Roadside	Arthur Street (Elmira Maintenance)	\$ (10,000)	-0.06%	(0.71)	Reduction in the Elmira BIA betterment requests. No Request from the BIA for Township Community Improvement Plan support
Infrastructure Services	Engineering Admin	Legal	\$ (20,000)	-0.1%	(1.41)	Expectation is for less use of this GL in the future
Infrastructure Services	Parking	External Contract, Winter Control	\$ (20,750)	-0.06%	(0.73)	Removal of snow removal services for 22 Church St (due to sale of property)
Chief Administrator Office	Economic Initiatives	Operating/Material Costs, Miscellaneous	\$ (3,000)	-0.02%	\$ (0.21)	SMART Waterloo Region Program is winding down. Current funding provided through this GL; amount has been reduced
Recreation and Community Services	WMC	Recreation Ice Fee increases (Thomas)	\$ (18,700)	-0.10%	(1.32)	R05-2025 Report
<b>B List Adjustments</b>			<b>\$ (319,311)</b>	<b>-1.86%</b>	<b>\$ (24)</b>

Year	Total FTE	Increase	Details
2012	64		
2013	65	1	Added Communications Coordinator/Mayor's Assistant (Contract)
2014	69	4	Added 2 contract positions in CIS (IT Project Co-ordinator & Admin Assistant - made permanent through Reorganization Study (2018)), Eng Technologist, Senior Leadhand RFS
2015	69	0	No change
2016	68	-1	Communications Coordinator/Mayor's Assistant (Contract not renewed)
2017	69	1	Added Asset Management Coordinator (due to Provincial legislative/regulatory changes), Fire Reorg (Added CEMC, Removed Fire Admin Assistant - therefore no net change)
2018	70	1	Added IT Manager (formerly contracted service with external vendor)
2019	72	2	Additional Director (Old EPS was split into IS & DS), Engineering Project Supervisor (both due to Reorganization Study)
2020	74	2	HR Generalist, Roads Supervisor (both due to Reorganization Study)
2021	79	5	GIS Technician, RCS Projects Supervisor & Aquatics Supervisor (both part of the Reorganization Study), IT Systems Administrator (contract to full-time), Customer Service Representative - FIN & CORP (this position was a combination of two part-time positions)
2022	88	9	4 Roads Operators, 2 Building Inspectors & Dev Eng Field Services Coordinator (positions due to growth), Water/Wastewater Operator (due to growth and regulatory changes by Province), Compliance & Admin - Water/Sewer (Provincial regulatory)
2023	90	2	Senior Planner, Engineering Project Supervisor
2024	93	3	Revenue Clerk, Development Engineering Technologist, Climate Action & Sustainability Coordinator
2025	96	3	Senior Financial Analyst, Operations Supervisor, Fire Training Officer
2026	97	1	Development Engineering Field Technologist

Total Staffing Costs as a Percentage of Total Budget Expenditures	45%	42%	42%	42%	42%	40%	38%

## CAPITAL BUDGET OVERVIEW

### CAPITAL EXPENDITURES

The 2026 Capital Budget has a proposed expenditure plan of approximately \$24.1 million. This is reflective of a conscious effort to right size the Township's capital program to ensure adequate reserve and reserve funds. A summary of all 2026 capital projects can be found in **Appendix 7 – 2026 Capital Budget Summary (Pg. 31)**.

It should be noted that while the Township is showing a 10-year capital plan, only the first year is adequately funded and the years beyond 2026 have not been thoroughly reviewed and are therefore included for information only.

In 2026, the Township will embark on a corporate wide exercise to develop a reliable 10-year capital plan with identified funding sources. This shift will take a significant effort across many departments but is a critical component of the long-term financial plan.

When preparing the Capital Budget and forecast, staff had to consider the following:

- The overall goals and objectives as communicated in the Strategic Plan
- Status of the current year's projects and any potential carry over

- Identification of new capital works
- Growth related timing and development needs
- Funding allocations, reserve and reserve fund levels
- Asset Management planning through state of the infrastructure reviews
- The priorities given to projects to ensure short and long-term initiatives fulfill the needs of the Township

The projects identified in the Capital Budget represent an attempt to balance competing priorities with the resources available and the existing reserve balances.

### VEHICLES AND EQUIPMENT

A focus for 2026 capital budget is vehicles and equipment. There are almost \$6.5M of these projects representing almost 19% of the total capital budget. Highlights include:

- Almost \$6M in new fire vehicles and equipment including a new rescue, pumper and aerial's
- A new single axle plow truck
- Various operations vehicles that have met the end of their useful life

It should be noted that the Township's current budget approach means vehicles not delivered in a previous fiscal year budgeted again in the next fiscal year

budget. As a result, several fire trucks listed have appeared in previous budgets.

## INFRASTRUCTURE SERVICES

Key Infrastructure Projects include:

- Completion of the Breslau Drain #1 construction project;
- \$1.8M Hot Mix Asphalt program;
- \$0.5M for Arthur St sidewalks and streetlighting in conjunction with the maintenance paving work from the Region
- \$2.7M of Bridge and Culvert programming, including the Low Level Bridge EA, the lowering of the Randall Drain Culvert to support the East Side Lands servicing strategy and the replacement of the Cox Creek structure.
- \$2M of sewer lining and I&I repairs;
- Engineering for water and wastewater servicing for the East Side Lands in Breslau, as well as Duke Street, Centre Street and Queen Street; and,

A full capital project forecast detail can be found in **Appendix 8 – Capital Budget Details (Pg. 33)**

It should be noted that while the Township is showing a 10-year capital plan, only the first year is adequately vetted and funded. Years presented beyond 2026 are included for information only.

## Appendix 7 - 2026 Capital Budget Summary

2026 DRAFT BUDGET

1                   Decrease from 2025 forecast of \$2.9M  
2                   Includes approximately \$400k for Barnswallow. Reconstruction removed from forecast  
3                   Estimate in 2025 was \$6.5M. Significantly reduced due to funding constraints  
4                   Requires debt funding for the construction; deferred project however, engineering work to remain ongoing  
5                   Fire related vehicles already ordered, potential for delayed delivery  
6                   Insufficient funding to do this project. Possible naming rights, but will still need debt / reallocation  
7                   May not proceed as HAF funding dependent. Will need to confirm eligibility

## FUNDING OVERVIEW

The following is a breakdown on the revenue sources for the proposed 2026 Capital Budget:

These funding sources are explained in more detail below:

### TAX LEVY / ENOVA DIVIDEND

The capital budget is supported by a direct contribution from the tax levy. The amounts in 2026 include direct tax levy contributions for infrastructure, equipment reserve contributions, and starting in 2026 the Enova dividend will

be used to support the capital program. This change in the Enova dividend does not impact the tax rate, and will enable surplus dividends to support the capital budget while keeping stability in the operating budget.

In future years, the Township will move towards a fully reserve funded approach to capital. This will include a long-term plan with consistent annual reserve contributions to avoid fluctuations in the tax levy.

### INFRASTRUCTURE RESERVE FUND

The Infrastructure Levy was first introduced in 2012. The Infrastructure Levy was introduced to address the Township's infrastructure deficit.

Just over \$2.36 million annually is currently being directed through the Infrastructure Levy to the Infrastructure Reserve Fund to help address the infrastructure deficit, to make sure we are addressing Provincial downloading.

While the establishment of the infrastructure levy has aided the municipality in addressing its infrastructure deficit, it is important to note that the roads and bridges needs study completed in 2012 found that a levy of between 3-4% per year was required. The Township's asset management identified a 10-year infrastructure gap of over \$100 million which will take sustained effort to reduce over the next 10 years.

The 2026 budget recommends a 1% increase to the infrastructure reserve (approximately \$180,000) to \$2.54M to help address the funding gap.

Also proposed in 2025 and continuing in 2026, is the use of a portion of the infrastructure levy to support the renewal and upgrading of financial and HR software. Capital needs such as new systems and software have limited funding sources apart from a direct contribution from the capital levy.

## CLIMATE ACTION/GREENING LEVY

In 2019, the Township instituted a Climate Action/Green Infrastructure Levy to support corporate and community climate action. Council's endorsement of community GHG reduction targets—50% by 2030 and 80% by 2050—underscored the need for funding to implement the Waterloo Region-wide climate change mitigation strategy, TransformWR.

In 2024, a Climate Action & Sustainability Coordinator position was approved by Council to lead the development and implementation of corporate and community climate initiatives to meet the Township's GHG reduction targets.

In 2025, as per Council direction following the budget parameters discussion, the Climate Action/Green Infrastructure Levy was reduced from \$336,000 by \$100,000 to achieve Council's desired tax levy target. As part of the 2025 Climate Roadmap, staff proposed a five-

year plan with various initiatives. Finance Staff worked with the climate team to analyze this plan and found it would be funded for the next five years at current contribution rates. As a result, no changes to the climate levy contribution are being proposed in the 2026 budget.

## RESERVE AND RESERVE FUNDS

More reserve details can be found in **Appendix 9 – Reserve and Reserve Fund Summary (Pg. 62)**.

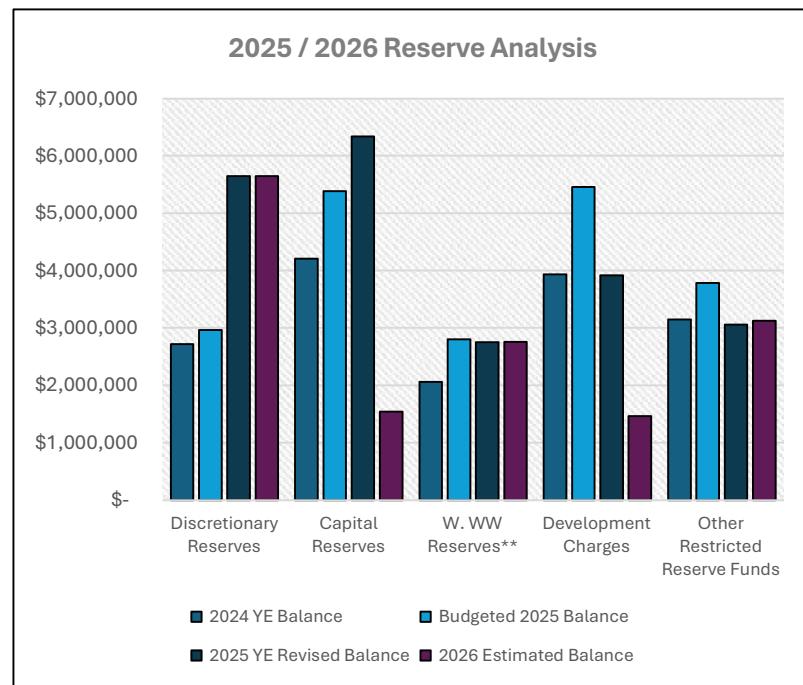

Best practice for capital budgeting follows a reserve fund approach. Rather than fund capital projects directly, annual reserve contributions are made to reserves and the capital expenditures are funded from these reserves based on long term capital needs and anticipated reserve balances. This approach allows the ability to smooth out fluctuations in capital spending and to build up reserve funds over time.

The Township has historically followed a hybrid reserve / pay as you go approach. Most capital revenue received each year is transferred in to reserves, then transferred out and fully allocated to capital projects in the following budget year. This short-term approach results in capital spending which closely matches annual revenue rather than taking a long term or priority-based approach.

As most capital revenue is consumed in the same year, this approach also does not allow reserves to be built to save for future needs or to respond to changing priorities.

The outcome of this approach over time is very low reserve balances and an increased risk to the long-term capital sustainability. It should be noted that the Township's true reserve fund position is more difficult to assess due to the pay as you go approach to capital. Therefore, a more conservative estimate has been used in this analysis assuming all costs budgeted will be spent.

In preparation for the 2026 budget, staff performed a reserve and reserve fund analysis comparing 2024 year-end balances, estimated 2025 balances and projected 2026 position.

The revised forecast shows improvements to discretionary reserves driven by improved working capital reserves and improvements to the winter control and operating contingency reserve contributions in the 2026 budget. Additionally, the water and wastewater reserve funds are substantially improved due to reduced capital spending and lower than expected water and wastewater operating deficits.

Other capital and development charge reserves are showing declining balances due to 2025 project overages and large draws for upcoming capital works. More closer monitoring of reserve and reserve funds have occurred in recent years and the Township is moving towards greater fiscal sustainability.

## CAPITAL RESERVES

The following are the primary capital reserves used in the funding of the capital program:

- Infrastructure Reserve Fund – Primary funding source for major infrastructure renewal and asset replacement. (Discussed above)
- Climate Greening Reserve Fund – funding for infrastructure work contributing to greener, healthier environment. (Discussed above)
- Property Building – for the major costs of maintaining public buildings and associated property.

- Park Fund - for the acquisition and development of public parks and recreational properties.
- Walter Bean Trail Fund - financing for improvements to the Walter Bean Trail.
- Working Capital Reserve – the purpose of this reserve is to fund short term cash flow needs and internal borrowing. Internal borrowing has not been accurately reflected in this reserve and has been adjusted in this budget. This is described in more detail below.

---

## EQUIPMENT RESERVES

The Equipment Reserve Fund is used for the replacement of vehicles and heavy equipment. This includes fire trucks, snowplows, passenger vehicles and other major equipment.

Recent years of high inflation has increased the cost of many goods. Heavy equipment in particular has seen cost increases well above the price of inflation. The Township historically budgeted for replacement needs based on an annual contribution to a reserve fund based on the expected life of the equipment and the last purchase price.

However, with the recent high-cost increases, existing annual contributions have not been sufficient. For example, the cost of a fire truck has almost doubled in recent years from a pre-Covid cost of less than \$800,000

to over \$1.5 million today. As a result, the current equipment reserve is in a negative position due to insufficient contributions to support the current cost of replacements.

The 2026 Budget recommends an increase to the fire equipment reserve of \$200,000 annually to begin to address this deficit. While this is a large increase, this contribution is still insufficient and will need to continue over the next three years to move towards sustainability.

---

## DEVELOPMENT ADMINISTRATION RESERVE FUND

The Development Administration Reserve is used to assist in offsetting administration and inspection costs incurred in the case of new development. In 2024 and 2025, there was a significant increase in the funding for this reserve related to an increase in development applications. This reserve fund is set aside for future costs related to development that are expected to occur in future years. In 2025 a development financial analyst position was approved with 75% of the salary being funded from this reserve. In addition, there is a new development inspector position requested in the 2026 budget to be funded from this reserve. A further analysis on this reserve will be completed in 2026 to ensure this reserve fund remains sustainable over the long term.

It should be noted that this reserve fund is not legislatively restricted as Building (OBC) or Development Charges so there is flexibility on the use of this reserve.

## UTILITY RESERVES

Utility reserves are the funding source for water and sewer related projects. This reserve is funded through contributions from water and wastewater rates. In the 2024 budget, Council was made aware of low reserve situation in utility reserves and increased the rates to allow for additional contributions.

The Township has also experienced large operating deficits in the water and wastewater operating budgets. As part of the 2025 budget process, Council approved the creation of a water and wastewater operating contingency as part of the increase in utility rates. This amount will continue in 2026 and will provide a funding source in case of future utility operating deficits and avoid impacts on our capital program. Due to reduced capital spending and lower forecasted operating deficits, there is significant improvements in these reserves.

## DISCRETIONARY RESERVES

In addition to the capital reserves outlined above, the Township maintains a number of discretionary reserves. The purpose of these reserves is to fund unforeseen expenditures primarily in the operating budget. Examples of the discretionary reserves include:

- Working Capital Reserve - To finance short-term cash deficiencies and avoid external borrowing costs.
- Insurance Reserve - to accommodate annual fluctuations in cost of claims (deductibles) and premiums.
- Capital Budget Contingency - mitigate the impacts of unforeseen events, extraordinary expenditures in the capital budget.
- Operating Budget Contingency - mitigate the impacts of unforeseen events, extraordinary expenditures and reductions in revenue in the operating budget.
- OMB / Legal Reserve - offset extraordinary and unforeseen OLT or legal expenditures
- Winter Control / Stabilization - mitigate the impacts of unforeseen winter events or extraordinary expenditures.
- Special Circumstances Reserve – funds costs related to special projects or circumstances as approved by Council from time to time.

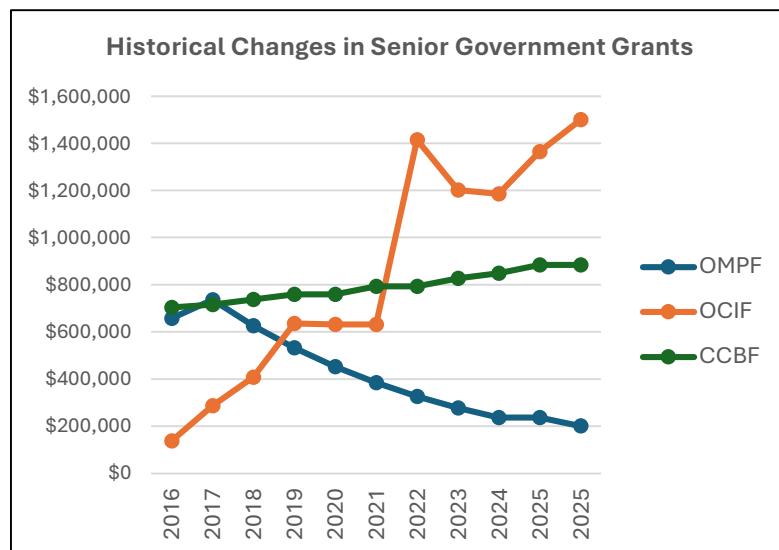

## WORKING CAPITAL RESERVE

The purpose of the working capital reserve is to finance short-term cash deficiencies and avoid external borrowing costs. Previously identified internal borrowing was offset against this reserve to provide a true picture of the reserve balances. With the 2025 debt issue, this

allowed for a replenishment of the working capital reserve because of the funds received from external borrowing.

## PROVINCIAL AND FEDERAL GRANTS

The graph below outlines the historical changes in senior government grants over the past few years.

While some grants such as the CCBF have remained relatively consistent, there have been larger variations in other grants. The OMPF has declined over time which is offset by increases in OCIF grants. The Township is heavily reliant on such grants to fund programs, and this variability in funding can impact predictability and reliability in developing budgets.

## ONTARIO MUNICIPAL PARTNERSHIP FUND (OMPF)

The Township annually receives an unconditional operating grant from the Province called the Ontario Municipal Partnership Fund (OMPF). This grant program is designed to assist northern and rural municipalities. In

2018 the Township's OMPF payment started decreasing by 15% increments every year. The Township's current OMPF allocation of \$236,200 in 2025 is a cumulative \$535,000 decrease since 2017.

The province has confirmed a further 15% reduction in OMPF funding which would amount to approximately \$35,000 reduction to \$200,600 in 2026.

## ONTARIO COMMUNITY INFRASTRUCTURE FUND (OCIF)

Since 2015, the Township has been receiving annual funding from the Province under the OCIF formula-based funding program. At the start of the grant program the Township received only \$137,620 but that figure increased to \$1,413,990 in 2022. In 2025 the Township will receive \$1,363,737 with an increase in 2026 to \$1,500,111. In recent years OCIF has mainly been used as a funding source for the Township's resurfacing and maintenance paving programs.

## CANADA COMMUNITY BUILDING FUND (CCBF)

The Township has been receiving CCBF (formally known as the Federal Gas Tax), since 2006. The Township receives federal funding under this program to support the capital budget. This program is currently managed by AMO (Association of Municipalities Ontario). The CCBF program allows municipalities to carry over funds for up to five years which ensures municipalities have the flexibility to direct funding towards desired projects. The Township received \$848,852 in 2024 and 2025. The CCBF agreement was extended for 10 years in 2024.

## HOUSING ACCELERATOR FUND (HAF)

In February 2024, the Township was advised by the Canadian Mortgage and Housing Corporation that our Housing Accelerator Fund (HAF) application for funding in the amount of \$6.72 million was approved and an initial advance of \$1.68 million was received. The Township is expecting three (2) additional installments over the next 2 years which however the final installment is conditional on housing targets met.

Staff expect we will see an increase in housing unit permits in 2025 and this will result in alignment with our HAF targets. The Township is using the funding provided to complete 10 initiatives required through the

program including a significant portion of the funds allocated towards the 22 Church St. strategic property purchase in Downtown Elmira to facilitate a mixed-use development with affordable housing units.

## DEVELOPMENT CHARGES

The Township adheres to a growth should pay for growth philosophy. Where the financial burden of new growth should not be borne by existing residents where possible. To the extent possible the Township relies on development charges (DC's) to fund the infrastructure needs of growth. In 2024 the Township performed a DC Background Study to update the rates charged for new development.

At the end of 2024 the closing balances of DC reserves was a total of \$3.9 million which is a decrease of over \$1 million compared to 2023-year end. It is important to note that this balance includes several DC reserves such as wastewater and fire that are in a negative balance which means these are effectively borrowing from the other DC reserves (see the debt section for more details on interfund borrowing).

The proposed 10-year growth related capital costs exceed \$330 million in the DC background study compared to anticipated DC and grant revenue of \$115 million which leaves a \$210 million shortfall. This level of capital spending simply could not be supported by the

Township's existing financial resources meaning the extent of the capital works identified in the DC background study is not financially viable. Recent changes to legislation which delayed DC collections until occupancy which will place further pressure on our DC reserve balances.

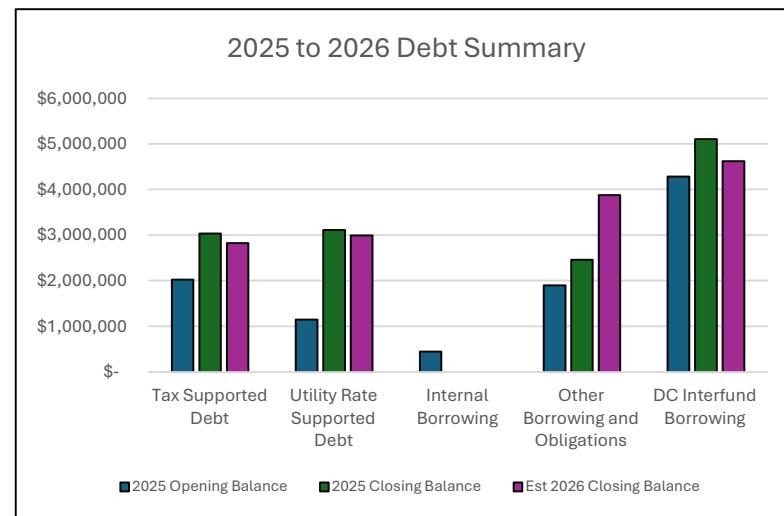

A new Development Financial Analyst contract position was onboarded in late 2025 and has already begun a detailed analysis on our development revenues and creation of a sustainable growth-related capital plan. This work will be presented in 2026 together with an operating impact analysis to better understand the financial impacts of growth.

## DEBT FUNDING

More reserve details can be found in **Appendix 10 – Debt Overview (Pg. 63)**

With limited reserves and a hybrid pay as you go approach to capital, the Township will need to issue debt as part of its long-term financing strategy. Debt is an important capital financing tool which can spread out the cost of an asset evenly along its useful life. However, debt is not a substitute for long term planning or maintaining adequate reserves. It is critical to use debt responsibly to protect the fiscal health of the Township. The recently approved debt management policy will ensure more responsible use of debt in the Township.

The graph below outlines the projected debt position at the start of 2025, projected 2025 year-end balance and projected 2026 balances. The detailed breakdown of the Township's debt can be found in the attached pages.

## TAX SUPPORTED DEBT

The term "tax supported debt" means that any repayments must be made through property taxes which may impact future tax rates. As of the end of 2025, the Township has approximately \$3.0M in tax supported debt. This debt relates to facility upgrades including the construction of the WMC as well as just over \$1.1 million of debt issued in 2025 for the Breslau Drain 1 project. The decrease from 2025 to 2026 is related to the principal payment in 2026.

## UTILITY RATE SUPPORTED DEBT

Utility (rate) supported debt is debt that is funded directly through utility rates. The repayment of this debt is funded by utility rates and needs to be considered when setting future utility rates. Current rate supported debt includes the Elroy Acres Water Extension project (2009), and the Industrial Drive Sewer (2023) as well as the North Sanitary pumping station which incurred \$2 million in debt issued in 2025. The decrease in the 2026 balance is related to the principal payment in 2026 which is included in the operating budget.

## INTERNAL BORROWING

As highlighted in the 2025 budget, Township undertook an internal borrowing program to fund several capital projects without an identifiable funding source. This is a high-risk financial practice as it requires high reserve balances to borrow from reserves earmarked for other purposes.

As the Township has had declining reserves in recent years, the practice of internal borrowing has led to cash flow issues. As a result, efforts have been made in 2025 to identify all internal funding sources and reduce the amount of internal borrowing.

This included repaying 2021 Hot Mix Resurfacing Program through the 2025 budget deliberations as well as reducing the \$440k for the LED Streetlight conversion

project which should reduce any internal borrowing identified. Any future internal borrowing will be committed against the working capital reserve until it is repaid to ensure that all internal borrowing has been identified and tracked.

## OTHER BORROWING AND OBLIGATIONS

This category is external borrowing or obligations but not through a formal debenture issue. This includes items like our 20-year CHP energy lease commitment which is approximately \$1.1M. This category also includes DC credits for work undertaken by developers on our behalf which is approximately \$1.3M in 2025 for the Ottawa St. extension and a potential additional \$1.5M in 2026 related to the Dolman St. extension.

## DC INTERFUND BORROWING

This category relates to interfund borrowing between DC reserves. The water, wastewater and fire DC reserves are anticipating a significant DC reserve shortfall. This is due to extensive capital works which were undertaken before the DC revenue has been collected. These costs are being borrowed temporarily from the public works (roads) DC to make up the shortfall. The projected deficit will depend on DC collections in 2026 but is anticipated to be approximately \$4.5M by 2026.

## DEPARTMENT SUMMARIES

The following section includes the department written budget comments and detailed budget excel files. There are also details around any new budget details in the relevant sections.

### CHIEF ADMINISTRATIVE OFFICER

#### DEPARTMENT OVERVIEW

- Office of the CAO
- Climate Action and Sustainability
- Economic Development and Tourism
- Emergency Management
- Fire Services

The Office of the CAO is responsible for the overall administration of the Township and is directly accountable to Council.

Climate Action and Sustainability is responsible for co-ordinating the implementation of climate action across the Township.

Economic Development and Tourism is responsible for supporting local businesses and economic growth through key programs and services. Core services include business retention/expansion and attraction,

corporate promotion and partnerships, and visitor services coordination.

Emergency Management is responsible for the development, management and training of our Emergency Plan.

Fire Services is responsible for providing community risk reduction services through its core functions of administration, public education, fire prevention, fire suppression, rescue, and training and development.

#### BUDGET PRESSURES

No significant budget changes in the 2026 Budget can be found in the CAOs Office, or the areas of Economic Development and Tourism, and Climate Action and Sustainability.

The Fire Services area pressures relate to the continued implementation of market adjustments for volunteer firefighter positions, the need for a significant increase in the transfer of funding into the Equipment Reserve Fund, the completion of a Fire Master Plan and higher allocations for projected volunteer staffing costs at each of the station levels using a three year average.

#### 2026 BUDGET HIGHLIGHTS

##### CAOs Office

- Continued implementation of the Strategic Plan

## **Economic Development and Tourism**

- Continued strategic investment of the MAT funding through collaboration with the BIAs and our tourism partners
- Implementation of the St. Jacobs Brand Audit and Wayfinding Signage project

## **Climate Action and Sustainability**

- Continued implementation of the Climate Action Plan

## **Fire Services**

- Continued implementation of market adjustments for volunteer firefighters
- Significant increase required for allocation to Equipment Reserve
- Increase in allocation for volunteer firefighter station costs based on 3-year average
- Completion of Fire Master Plan
- Increased Firefighter Health and Safety regulations

# New Initiative Request Form

FIR-01

**Department:** Fire Services

**Current Status:**

**Initiative Type:** Core Need / Risk Reduction

**Priority Area:** Infrastructure Renewal / Core Service

## Summary of Request:

Additional Contribution for Fire Equipment and Vehicle Replacement Reserve

## Detailed Description:

The current long term capital analysis for Fire vehicles and equipment predict that an additional annual contribution of \$500,000 annually is required at current replacement costs in order for the long term fire capital plan to be sustainable. This contribution covers both vehicles and fire fighting equipment.

## Evaluation Criteria:

Criteria Description	Rationale	Impact	Weight	Score
<b>Core Service Outcomes:</b> How does this initiative advance your departments core service delivery?	Having modern and reliable equipment is essential to the delivery of fire services and emergency responses. It is also critical to the health and safety of the firefighting team.			
<b>Financial Rationale:</b> Does this request create a positive financial benefit for the Township? How does this request offer a strong return on investment?	Having a predictable reliable reserve contribution reduces the need for spikes in future tax increases and allows for more predictable budgets.			
<b>Impact on the Community:</b> Does this request provide a direct benefit to the community? Will the public notice tangible benefits for this request?	Having reliable vehicles and equipment allows fire services to serve the community and respond to calls reliably.			
<b>TOTAL</b>				-

## Other Impacts / Risks

<b>Other Options Considered:</b> What other options were considered in this initiative?	Other options could be to extend the life of existing vehicles. We have already looked at reducing the size of some replacement vehicles and looking at used vehicles.
<b>Risks:</b> What are the risks of not completing the initiative?	Equipment must be replaced regularly or it is a health and safety risk for firefighting staff. Having reliable vehicles is essential to respond to emergency calls.
<b>Key Performance Indicators (KPIs)</b> - How would you measure success?	The measure of success would be a fully funded 10-20 year equipment program and not have a reserve deficit.

## Operating Budget Impacts

2026 Cost Impact (\$ amount)	Description	2027	2028	2029
\$ 200,000	Tax Levy Increase	\$ 200,000	\$ 200,000	

## Finance Comments:

This request is planned to be a phased in increase to the tax levy with \$200K in 2026, 2027 and 2028.

## CORPORATE SERVICES

### DEPARTMENT OVERVIEW

- Grants
- By-law Enforcement
- Clerks Division
- Communications
- Human Resources
- Information Technology
- Corporate Overhead

The Clerks' Division is responsible for providing meeting support to Council and Committees, including orientation and training, while ensuring compliance with legislation as well as Township By-laws. This Division also has responsibility for community grants, elections and records management. The Communications Budget, including the Township's website, social engagement platform and social media is now shown separately for improved transparency.

Information Technology (IT) is responsible for supporting Township staff on all hardware and software-related needs, from mobile devices, computers, desktop applications to server and networking needs. IT maintains public wireless connections in facilities and is

responsible for security of corporate systems. It supports users at the Administration Office, Woolwich Memorial Centre, Breslau Community Centre, Operations Yards, St. Jacobs Arena and six fire stations. As the Township grows, IT looks to find efficiencies by automating work and providing online services to residents like self-service portals.

By-law Enforcement supports our communities by responding to complaints about by-law infractions. The division is also responsible for licencing, the school crossing guard program and the new Administrative Monetary Penalty System that has been successful in diverting most administrative offences out of the court system, making dispute resolution efficient, effective and customer service focused.

Human Resources (HR) is responsible for providing HR management programs and services consistent with Council policies, Township procedures, and regulatory requirements to enable the Township to meet its business and service goals. This division supports other departments with staff recruitment, onboarding, training, retention and offboarding. HR staff lead the Township's health and safety program.

### BUDGET PRESSURES

As noted above, the province recently announced a further 15% reduction to the Township's only remaining operating grant, the OMPF.

The IT department continues to see increased costs to annual software subscriptions and are taking on the cost of the new Human Resources and Financial Software in the IT budget since these programs support the entire corporation. The cost of hardware like computers and network equipment continues to be volatile due to tariffs and consumer demand.

Calls for By-law Enforcement services continue to grow with the overall growth in the community and at times, high service level expectations.

## 2026 BUDGET HIGHLIGHTS

On October 7, the Elmira Lawn Bowling Club presented to Council to request a \$10,571 capital grant to build two accessible entrances to the club. In lieu of a grant, this project will be combined with other capital work being completed on the building by RCS, if sufficient funds remain.

The grants budget also:

- includes cost of living increases that were pre-approved for the term of Council
- includes minor increases to the Equity, Diversity, Inclusion and Belonging (EDIB) and miscellaneous grant categories to reflect previous years actuals

- does not include an incomplete capital grant request submitted by the Woolwich Gymnastics Club for \$75,000

The only notable change to the Clerks portion of the budget is an increase in municipal elections and associated part-time salaries since 2026 is an election year. These increased costs are offset by an interfund transfer from the Election Reserve.

The Communications budget includes a new transfer to reserve line to start building a fund to cover repair and replacement costs of the Municipal Digital Sign launched in 2025.

The Information Technology (IT) budget includes the subscription costs for two new significant corporate enterprise software costs: the integrated Human Resources and Payroll software system and the new Financial System.

In By-law Enforcement, 2025 was the first full year using the Administrative Monetary Penalty System (AMPS), so both expenses and revenues have been updated to reflect updated projections. The professional services budget line has been further reduced following the AMPS implementation. This budget includes the first full year of costs for new AMPS software approved by Council on August 12. Revenue projections include a thorough

analysis of fees and charges as well as increasing the in-house response to property standards calls.

Human Resources has a new budget line for Labour Relations costs that were previously coded to the miscellaneous account.

The Corporate Overhead budget also falls under Corporate Services, which includes a \$35,000 reduction to the OMPF grant as noted above.

## COUNCIL

### DEPARTMENT OVERVIEW

Council's role is to develop and evaluate the policies and services provided by the municipality. This requires balancing public representation and the well-being of the municipality. Council's budget includes special events, funding to waive fees and charges and costs related to the Technical Remediation Advisory Committee (TRAC) and the Grand River Accessibility Advisory Committee (GRAAC).

### BUDGET PRESSURES

Council's budget has relatively few pressures; however, staff are monitoring the fees and charges waiver and meeting expenses accounts.

### 2026 BUDGET HIGHLIGHTS

Minor increases have been made to the meeting expenses budget to reflect actual costs of providing both in-person and remote meetings. To offset increased costs, the 1-800 number that lets residents call in to remote meetings for free has been removed. Staff found that this has been used rarely after the COVID-19 pandemic since most users now attend meetings in person or join by zoom. Staff will work with anyone who may have requested the 1-800 number in the past to find appropriate accommodations.

Included in the budget is an improved communication services for the Technical Remediation Advisory Committee, which is contingent on approval of offsetting revenue from Lanxess.

Council also received requests from the Waterloo Region Immigration Partnership and the Chamber of Commerce physician recruitment which would typically fall in the Collaboration Initiatives budget line. Mayor Shantz has included \$3,000 in the budget to contribute to the physician recruitment.

## DEVELOPMENT SERVICES

### DEPARTMENT OVERVIEW

- Building Division
- Development Engineering
- Planning

The Building Division is responsible for the administration and enforcement of the Ontario Building Code Act as well as some Municipal By-laws as they relate to new development and construction.

Development Engineering is responsible for providing engineering review, administration and oversight for all development-related applications from commencement (pre-consultation) to implementation (construction) to final completion (deficiency review, certification, and final assumption).

Planning Services is responsible for helping build the Township's future by managing growth and the physical form of the Township. The Planning services division works on developing and implementing policies and regulations to ensure the Township vision is achieved.

### BUDGET PRESSURES

Planning Services has seen an increase in workload and responsibilities due to the shifting of Regional planning

responsibilities, provincial legislation changes and planning for the expanded settlement area boundaries. The Planning division is working with the Development Engineering division to ensure the Township is prepared for the infrastructure and soft servicing requirements to meet the housing needs of our residents, along with Provincial housing pressures to build more homes and faster. The Township has seen an increase in planning applications submitted in 2025, particularly large subdivisions which will require continued processing in 2026. The Building division has also seen increased numbers for building permit applications in 2025 which are expected to continue in 2026.

To ensure that Development Services has the tools needed to deal with these pressures, budget options included for consideration include new building software, an additional field inspector position and understanding of delays in planning application approval based on workload requirements.

### 2026 BUDGET HIGHLIGHTS

The Township is expecting to see a significant amount of growth in the 2026 – 2051 planning period. In 2026 the Township will continue to see the build out of subdivisions in Breslau. The Township is currently processing additional subdivisions in St. Jacobs, Elmira and Breslau which may see some built out before the end of 2026. The Building and Development Engineering

divisions saw increases to the reserve funds in 2025 and are anticipating that there will be additions to the reserve funds for the respective divisions in 2026.

In 2025, the Regional Planning responsibilities were removed through the proclamation of Bill 23. This resulted in the Township Planning staff taking on additional planning review and commenting responsibilities that were previously completed by the Region. This resulted in additional work and training needed for staff and full impact will be realized in 2026. An additional staffing resource was proposed in the 2026 budget to assist with this additional workload and complete outstanding workplan items which have been delayed due to workload limitations with current staff compliment. Without this position the Planning division will be required to outsource the Official Plan public consultation and planning design/modeling work to external consultants, delay the parkland dedication by-law, delay monitoring and updates to the Housing Needs Assessment, delay planning development application processing, and temporarily stop monitoring of development statistics.

Major projects in 2026 for the Planning division include the completion of the new Township Official Plan which will incorporate the Breslau Secondary plan work, the Regional Official Plan and the 2024 Provincial Planning Statement. Another major project is the Breslau staging and growth plan which started in 2025 but will continue in

2026. This plan will include other departments and include a long-term servicing plan and financial plan for the ultimate development of the Breslau area. Planning staff continue to process development planning applications in 2026 including large scale subdivision applications submitted in 2025.

The Building division, as a self funded division, has a healthy reserve fund. Staff are proposing to draw from the reserve in 2026 to acquire some additional building software modules to better track building permit applications. The software will result in continued efficiencies within the division and saved staff time. The Building division will also complete a building fee study in 2026 to ensure we are appropriately collecting building fees. Two new vehicles for building inspectors were acquired in 2025 and the division has seen the gas and mileage savings in the last year.

# New Initiative Request Form

DS-06

**Department:** Development Services

**Current Status:** Draft

**Initiative Type:** New Staff Request

**Priority Area:** Growth / Development

<b>Summary of Request:</b>		Development Engineering Field Technologist		
Development Services is proposing to add a Field Technologist to the staff complement				
<b>Detailed Description:</b>				
With new growth and development and the approval of development applications, Development Engineering division is responsible to inspect all new infrastructure before it gets assumed by the Township. The Township has seen significant growth and will continue to see significant growth, particularly in Breslau. In order to provide thorough and timely inspection, an additional position is proposed to be added for Field inspection. The Development Engineering division is self funded by development applications and this position will have no impact on the Township tax base.				
<b>Evaluation Criteria:</b>				
<b>Criteria Description</b>	<b>Rationale</b>	<b>Impact</b>	<b>Weight</b>	<b>Score</b>
<b>Core Service Outcomes:</b> How does this initiative advance your departments core service delivery?	The additional field inspector will allow the comprehensive and timely inspection of new infrastructure prior to the Township taking on this infrastructure. Additional staff to conduct inspections will ensure the Township receives quality infrastructure to save future tax payers.			
<b>Financial Rationale:</b> Does this request create a positive financial benefit for the Township? How does this request offer a strong return on investment?	The additional field inspector will ensure good quality infrastructure is assumed by the Township resulting in less long term replacement costs to the Township.			
<b>Impact on the Community:</b> Does this request provide a direct benefit to the community? Will the public notice tangible benefits for this request?	The additional field inspector will benefit the community by ensuring infrastructure has been constructed in accordance with the accepted design, standard engineering practices and Township standards. This results in infrastructure with the best lifespan.			
<b>TOTAL</b>				-
<b>Other Impacts / Risks</b>				
<b>Other Options Considered:</b> What other options were considered in this initiative?	Other options include outsourcing inspection to consultants which would impact the development's contribution to the reserve fund. Consultant engagement is typically more expensive than engaging staff and may not consider the Township's customer service commitments.			
<b>Risks:</b> What are the risks of not completing the initiative?	Risks associated with less site inspection include improper installation of infrastructure which could result in less than optimal lifespan of the infrastructure and future cost the Township.			
<b>Key Performance Indicators (KPIs)</b> - How would you measure success?	Development Engineering would measure the success by monitoring the lifecycle of infrastructure and evaluating failures related to lack of inspection.			
<b>Operating Budget Impacts</b>				
<b>2026 Cost Impact (\$ amount)</b>	<b>Description</b>	<b>2027</b>	<b>2028</b>	<b>2029</b>
\$ 126,500	Development Engineering Field Technologist Salary	\$ 130,000	\$ 134,000	\$ 138,000
	Funding source - Development Engineering			
<b>Finance Comments:</b>				

## FINANCIAL SERVICES

### DEPARTMENT OVERVIEW

- Management and Budget (Financial Planning and Policy)
- Financial Operations and Accounting
- Payroll and Benefits Administration
- Revenue Services

Financial Services is responsible oversight, administration and reporting on all financial matters for the Township.

Management and Budget (including Financial Planning and Policy) is responsible for the overall financial planning and policy development of the Township. This includes coordinating the operating and capital budget, developing long term financial plans, and ensuring appropriate financial policies are in place to reduce risk and ensure the effective financial management of the Township.

Financial Operations and Accounting ensures all daily and regular financial operations are performed. This includes but is not limited to purchasing, accounts payable, journal entries, bank and account reconciliation, regular reporting through monthly and annual financial statements, year-end processes, grant reporting and other government returns.

Payroll and Benefits Administration ensures the timely payment of all employees, regular remittances to CRA and external bodies, registration and administration of the Town's various benefit programs.

Revenue Services provides overall revenue collection and administration for the Township. This includes ensuring the calculation and collection of property taxes, water and wastewater billing, accounts receivable, and related customer service enquiries for these services.

### BUDGET PRESSURES

There has been increased growth in the Township population which increases financial pressures as well as complexity of financial planning and reporting. Further changes to the external environment, including changes to legislation and accounting standards put additional demands on finance staff to keep pace.

New finance staff hired in recent years have begun a shift to develop long term financial plans. New finance software is intended to go live in 2026 which will also result in overhauls to the existing budget process and development of long-term financial models. Residents expect improved transparency through increased data, analysis and financial reporting to have confidence that tax dollars are being used effectively. Improvements have already been made to financial reporting and will continue in 2026.

## 2026 BUDGET HIGHLIGHTS

### New Financial Software

Due to growth in recent years and increased complexity of the Township's operations, the current finance software solution does not meet current needs and is out of date. The shift to more modern technologies offers several benefits, including:

- Efficiency through enhanced workflow and automation
- Improved database integrity
- Greater security and resiliency
- Elevated reporting capabilities
- Better ability to meet the needs of citizens

This software implementation started in 2025 with anticipation to go live in 2026 which will involve configuration, report writing, and post-implementation activities.

### Investment Revenue

The 2025 budget reduced investment revenue by \$100,000 due to the declining interest rate environment. However, due to more active cash management and higher than expected cash balances, staff expect an investment revenue surplus in 2025. This increased revenue would be expected to continue in 2026 so an

increase of \$75,000 of investment revenue has been included in the 2026 budget.

In future years, to reduce volatility in the operating budget, investment income may instead be put directly to reserve and reserve funds. This would avoid spikes and dips in operating revenue due to interest rate changes. This approach will be reviewed and implemented in future years if warranted.

### Penalties and Interest Revenue

Staff expect penalty and interest revenue for unpaid property taxes to exceed the 2025 budget amount. This trend of late payments has been seen in most other municipalities and is expected to continue in 2026. As a result, staff have increased the penalty and interest revenue in the 2026 budget.

# New Initiative Request Form

FIN-06

**Department:** Finance

**Initiative Type:** Strategic / Growth Related

**Current Status:**

**Priority Area:** Infrastructure Renewal / Core Service

**Summary of Request:** Winter Control Reserve

## Detailed Description:

While the Township has a Winter Stabilization Reserve, there is currently a low balance in the reserve and no annual funding allocated. Winter Control remains an underfunded division, which puts additional pressure on reserves in the event of deficits. While there is a proposed increase in Winter Control costs in 2026, best practice would be to establish a dedicated winter control reserve to fund any overages related to severe weather. This request would provide funding until an established target balance is met.

## Evaluation Criteria:

Criteria Description	Rationale	Impact	Weight	Score
<b>Core Service Outcomes:</b> How does this initiative advance your department's core service delivery?				
<b>Financial Rationale:</b> Does this request create a positive financial benefit for the Township? How does this request offer a strong return on investment?				
<b>Impact on the Community:</b> Does this request provide a direct benefit to the community? Will the public notice tangible benefits for this request?	An overage related to severe weather could require a reduction in other services if there is insufficient winter control funding available.			
<b>TOTAL</b>				-

## Other Impacts / Risks

<b>Other Options Considered:</b> What other options were considered in this initiative?	
<b>Risks:</b> What are the risks of not completing the initiative?	There is currently limited operating contingency to absorb any unexpected costs. This presents a very high financial risk.
<b>Key Performance Indicators (KPIs)</b> - How would you measure success?

# New Initiative Request Form

FIN-07

**Department:** Finance

**Initiative Type:** Strategic / Growth Related

**Current Status:**

**Priority Area:** Infrastructure Renewal / Core Service

**Summary of Request:** Operating Contingency Reserve

## Detailed Description:

The Township has been experiencing significant operating deficits for years which have previously been covered by one time funding from surplus Enova dividends. This surplus revenue is expected to end in 2026 which will place the Township in significant financial risk due to very low contingency reserve balances. Any similar future overages would not have a funding source and may need to be funded from general operating revenues. This request would provide additional reserve funding until an established target balance is met.

## Evaluation Criteria:

Criteria Description	Rationale	Impact	Weight	Score
<b>Core Service Outcomes:</b> How does this initiative advance your departments core service delivery?	This will ensure the sustainability of the Township by increasing an amount for operating contingency reserve to ensure sufficient funding is available for unexpected events.	High		
<b>Financial Rationale:</b> Does this request create a positive financial benefit for the Township? How does this request offer a strong return on investment?				
<b>Impact on the Community:</b> Does this request provide a direct benefit to the community? Will the public notice tangible benefits for this request?				
<b>TOTAL</b>				-

## Other Impacts / Risks

<b>Other Options Considered:</b> What other options were considered in this initiative?	
<b>Risks:</b> What are the risks of not completing the initiative?	There is currently limited operating contingency to absorb any unexpected costs which presents a very high financial risk. Unexpected future events without any contingency reserves could require a reduction of existing programs and projects and could impact the financial stability of the Township.
<b>Key Performance Indicators (KPIs)</b> - How would you measure success?

## INFRASTRUCTURE SERVICES

### DEPARTMENT OVERVIEW

- Asset Management
- Engineering
- Operations (Roads, Water and Wastewater)

Asset Management is the responsibility of every department that maintains tangible assets on behalf of the Township. Properly managing assets is crucial to effective and efficient service delivery. In its simplest form, this involves understanding what the municipality owns, the condition and then applying the most cost-effective strategy for intervention, renewal, replacement and/or disposal to meet defined service levels and maximize useful life.

The Infrastructure Services Department is responsible for almost one billion dollars (2023\$) of the Township's total \$1.12 billion inventory, which equates to about 88% of all assets. The Department's funding sources for its asset inventory breakdown to 30% being rate supported for water and wastewater assets and 70% that are tax supported for the road system, bridges, culverts, stormwater and cellar drains.

Engineering is responsible for Municipal Drains, capital programming associated with water and sewer

infrastructure and the Township's entire transportation network.

Operations is responsible for the day-to-day and long-term preventative and reactive maintenance type activities to ensure reliable and efficient systems, such as water distribution, wastewater collection, stormwater management and transportation networks.

### BUDGET PRESSURES

The Engineering section is struggling with customer service demands associated with traffic control and corridor management. Currently, there is one position in the organization that deals with all of the permitting associated with driveways, municipal consent approvals for utility works like telecommunications, gas and hydro along with the Township's traffic calming and monitoring programming. Since 2022 there has been an 111% increase in applications received and processed. This has resulted in further delays associated with the Traffic Calming program as there continues to be a lack of resourcing available to adequately address traffic calming requests. This does remain a priority for many residents who frequently voice their concerns to the department. Woolwich's procedure and approach to traffic calming is appropriate, but again the department lacks the staffing resources to be able to make a meaningful impact.

Unfortunately, this is yet another difficult budget year as the Township is attempting to manage its growing

operations and maintenance obligations and keep up with the much-needed capital investment and renewal programming in the face of fiscal and political uncertainty.

A continuing theme that has been noted in previous budget years is that the influx of new levy is insufficient to meet the needs of the community and the challenges to properly plan and implement the infrastructure needed for sustainable growth. It is not this Council that has led the organization to where it is today but many years of fiscal decisions that were intended to provide spending restraint have resulted in unintended fiscal consequences that essentially subsidized rate payers. Now when faced with the stark realities of cost escalations far outpacing typical inflationary numbers, there is no ability to pull from 'rainy day' reserves for the unforeseen challenges that arise, and there is limited ability to strategically plan for the future. These previous decisions to strip operating budgets and hold staffing levels to bare minimums has led to the current state of the organization's fiscal health.

It is not all doom and gloom, as there are many things in Council's control, but it will take a significant course correction and concerted long-range thinking to put the Township into the sustainable position that is required. To adequately manage the Township's increasing asset inventory, more predictable and sustainable funding increases and alternate revenue sources are required. While the Infrastructure Reserve Fund was a visionary implementation in 2012, the amount being generated is

not sufficient to build up any form of a reserve as year over year, what goes in is allocated in that same year. Unless a decision is made to become more self-sufficient, the Township will continue to be reliant on other funding sources, which are not reliable in the long term. This year's Infrastructure Services capital budget is supported by almost \$2.7 million coming from the Federal and Provincial governments, this equates to over 19% of the entire budget. In contrast, the department's share of new levy amounts to only 3.9%.

To help continue to improve the financial position of the organization, efforts were made to minimize capital expenditures from the water and sewer reserve fund in 2025 with the intent to maintain this approach again in 2026. This is a holding strategy and should not solely be relied upon to improve the fiscal position of the reserve accounts as this will only result in much higher maintenance costs and greater service disruptions over the long term. A similar approach has been applied to levy expenditures in the departments' 2026 budget. The intent is to not fully spend the entire infrastructure reserve fund but rather strategically reduce capital levy expenditures this year.

The Township also needs to address the lack of resources and invest in critical positions that can improve the organization's analytical and long-range planning abilities. If not, more drastic measures will need to be implemented until a fiscally sustainable model is

achieved. Without appropriate action certain assets will further degrade or be disposed of for the sake of others as there will not be sufficient funding and/or staffing resources to sustain what the Township currently has in its inventory let alone the infrastructure that is already slated to be assumed. There are no new staffing requests this year; however, once again tough decisions were needed to be made this year and unfortunately the Infrastructure Services Department will continue to be the only department without a dedicated back up for the Director as the Manager of Engineering position is once again not being supported.

## 2026 BUDGET HIGHLIGHTS

The proposed capital projects for Infrastructure Services in 2026 amount to over \$20 million. Some of the more notable projects that are proposed include:

- Completion of the Breslau Drain #1 construction project;
- \$1.4M associated with the Elmira Downtown Core Revitalization;
- \$2.6M Hot Mix Asphalt program;
- \$2.7M of Bridge and Culvert programming, including the Low Level Bridge EA, the lowering of the Randall Drain Culvert to support the East Side Lands servicing strategy and the replacement of the Cox Creek structure;

- \$2M of sewer lining and I&I repairs;
- Engineering for water and wastewater servicing for the East Side Lands in Breslau, as well as Duke Street, Centre Street and Queen Street; and,
- Replacement of the Dunke Street Culvert through the Investing in Canada Infrastructure Program (ICIP) fund.

The 2026 Capital Hot Mix Paving Program includes the following:

Surface asphalt placement at:

- George Street, High Street and Charles Street; and,
- Halter Avenue, Isley Drive and Notre Dame Avenue.

The rehabilitation of:

- Spitzig Road between Hopewell Creek Road and St. Charles Street West; and,
- Whippoorwill Drive between Arthur Street and Barnswallow Drive.

The maintenance paving of:

- Barnswallow Drive between First Street and Church Street West; and,
- Sunset Drive in Winterbourne between its terminus and Peel Street.

The conversion of:

- Rider Road from gravel to surface treatment; and,
- Lerch Road, which requires some repairs to fully complete.

The Capital Paving Program for 2026 does not meet the annual spending required to sustain the asset inventory over the long term in accordance with the 2024 State of the Infrastructure for Roads. This continues to be an issue for the organization as resurfacing needs outpace funding allotment for the road network.

The 2026 Capital Bridge and Culvert Program includes the lowering of the Randal Drain structure that is a carry-over project originally awarded in 2025 with contractor electing to complete the project in 2026. The program also includes the replacement of the Cox Creek structure and a number of engineering projects. The most notable engineering project involves an Environmental Assessment process for the Low-Level Bridge in St. Jacobs. This structure has heritage significance and provides an important water crossing for the Horse and Buggy community. The bridge is nearing its useful life and underwent an emergency repair in 2021 due to significant erosion that compromised its structural integrity. The bridge has been undergoing underwater inspections since and without a long-term solution the water crossing will no longer exist.

This is the first year for the detailed engineering work necessary for the expansion of municipal servicing within the East Side Lands of Breslau. This is an important growth-related project that will establish alignments for both water and wastewater servicing needed for managed and balanced growth to occur. This is a critical piece in realizing the significant opportunity that the East Side Lands in Breslau affords. With a mix of residential and employment lands, coupled with the Region of Waterloo International Airport, the future Metrolinx Go Station, the planned new Highway 7 and proximity to Highway 401, the East Side Lands are one of the most significant and important growth areas in the province and should be embraced as a rare and unique opportunity for the Township of Woolwich to rise to the occasion.

The 2026 Capital program had contemplated the expansion of the Breslau Wet Well, which is required for the Township to realize its wastewater capacity allotment through its cross-border servicing agreement with the City of Kitchener. However, while this project is fully development charges eligible, there are insufficient wastewater DC reserves available at this time. Therefore, the project has been deferred until 2027.

The Township's inaugural water meter replacement program is contained in this year's capital budget with 500 meters anticipated to be replaced. This is the first year of a concerted effort to replace the back log of aged

water meters in the Township. There are over 2,000 meters that exceed their useful life. Aged water meters contribute to water loss as older meters have mechanical parts that slow down over time, which results in revenue loss. This program will improve the financial position of the water utility and 2026 will be the first year of a program that is likely to continue in perpetuity.

# New Initiative Request Form

IS-09

**Department:** Infrastructure Services

**Current Status:** 
**Initiative Type:** Core Need / Risk Reduction

**Priority Area:**  Infrastructure Renewal / Core Service

**Summary of Request:**  Roadside - Sump Pump Relocation

**Detailed Description:**

This project is for the relocation of sump pumps in the Maryhill community. This is a specific community request. \$67,302 was spent on this initiative in 2023, however none was spent in either 2024 or 2025 (\$0 budget allocation in 2025). This is expected to be a recurring need throughout other communities within the Township.

## Evaluation Criteria:

Criteria Description	Rationale	Impact	Weight	Score
<b>Core Service Outcomes:</b> How does this initiative advance your departments core service delivery?				
<b>Financial Rationale:</b> Does this request create a positive financial benefit for the Township? How does this request offer a strong return on investment?				
<b>Impact on the Community:</b> Does this request provide a direct benefit to the community? Will the public notice tangible benefits for this request?	The Maryhill community is in need of assistance with Sump Pump Relocations. The plan is to work with the community to develop a committee (run by residents) to assist in the most needed sump pump replacements.	Very High		
<b>TOTAL</b>				-

## Other Impacts / Risks

<b>Other Options Considered:</b> What other options were considered in this initiative?	NA
<b>Risks:</b> What are the risks of not completing the initiative?	Maryhill could see difficulties with overages in flooding if sump pumps are not relocated and replaced effectively. Water runoff into the sewers is not possible as this community does not have sewer infrastructure
<b>Key Performance Indicators (KPIs)</b> - How would you measure success?	NA

## Operating Budget Impacts

2026 Cost Impact (\$ amount)	Description	2027	2028	2029
\$ 25,000	Tax Levy			
\$ 25,000	Cost-sharing component from residents			
\$ 50,000	Total			

## Finance Comments:

Corporate Services noted that there are current by-law enforcement issues within this area as well - some residents have received recurring visits but continue to discharge water onto the roads, causing slippery conditions. Sump pump relocations would eliminate this concern.

# New Initiative Request Form

IS-10

**Department:** Infrastructure Services

**Current Status:** 
**Initiative Type:** Core Need / Risk Reduction

**Priority Area:**  Service Enhancement / Community

**Summary of Request:**  Roadside - Tree Planting

**Detailed Description:**

This project includes funding of \$50K for the purposes of Tree Planting. In years prior, when there have been operating shortages, the Township has cut the Tree Planting budget. As a result, the Township has removed trees from boulevards that are dying and in turn, have not replaced the trees.

**Evaluation Criteria:**

Criteria Description	Rationale	Impact	Weight	Score
<b>Core Service Outcomes:</b> How does this initiative advance your departments core service delivery?				
<b>Financial Rationale:</b> Does this request create a positive financial benefit for the Township? How does this request offer a strong return on investment?				
<b>Impact on the Community:</b> Does this request provide a direct benefit to the community? Will the public notice tangible benefits for this request?	This visually provides a quick benefit to the residents as those effected currently have empty boulevards.	High		
<b>TOTAL</b>				-

**Other Impacts / Risks**

<b>Other Options Considered:</b> What other options were considered in this initiative?	Tree Planting initiatives are common amongst municipalities; further review of provincial grant programs could be considered.
<b>Risks:</b> What are the risks of not completing the initiative?	NA
<b>Key Performance Indicators (KPIs)</b> - How would you measure success?	# of trees planted per year

**Operating Budget Impacts**

2026 Cost Impact (\$ amount)	Description	2027	2028	2029
\$ 50,000	From the Climate Action/Green Infrastructure Fund			
	(no tax levy impact)			

**Finance Comments:**

Through Budget discussions, this new initiative will be implemented however, have a funding source from the Climate Action/Green Infrastructure Fund

# New Initiative Request Form

IS-11

**Department:** Infrastructure Services

**Current Status:**

**Initiative Type:** Core Need / Risk Reduction

**Priority Area:**  Infrastructure Renewal / Core Service

**Summary of Request:** Hardtop - Surface Treatment

## Detailed Description:

This project includes the completion of surface treatment work within the IS operating budget. This is recurring work that is completed through external contracts - costs in previous years include: \$333,542 in 2022, \$130,500 in 2023 and \$378,437 in 2024. The 2025 budget included \$265K, with \$22,340 spent as of November 30, 2025. The department would like to increase the budget in 2026 from \$265K to \$313.5K to complete the remaining 2025 work and all the 2026 work.

## Evaluation Criteria:

Criteria Description	Rationale	Impact	Weight	Score
<b>Core Service Outcomes:</b> How does this initiative advance your department's core service delivery?				
<b>Financial Rationale:</b> Does this request create a positive financial benefit for the Township? How does this request offer a strong return on investment?				
<b>Impact on the Community:</b> Does this request provide a direct benefit to the community? Will the public notice tangible benefits for this request?	Residents see an immediate benefit from surface treatment on roads.	High		
<b>TOTAL</b>				-

Other Impacts / Risks	
<b>Other Options Considered:</b> What other options were considered in this initiative?	
<b>Risks:</b> What are the risks of not completing the initiative?	Residents have continued to express concerns about the state of the roads within the Township. Not completing surfact treatments would weaken the road network further.
<b>Key Performance Indicators (KPIs)</b> - How would you measure success?	

2026 Cost Impact (\$ amount)	Description	2027	2028	2029
\$ 313,500	2026 Budget			
\$ 265,000	Less: 2025 Budget			
\$ 48,500	2026 Tax Levy Impact			

Finance Comments:

# New Initiative Request Form

IS-15

Department:	Infrastructure Services
Initiative Type:	Core Need / Risk Reduction

Current Status	
Priority Area	Infrastructure Renewal / Core Service

<b>Summary of Request:</b>	Cost Allocation - Labour and Equipment Adjustments
----------------------------	----------------------------------------------------

## Detailed Description:

Infrastructure Services leverages a cost allocation tool for salaries, equipment, facilities and general operating maintenance costs. In recent years, salary and equipment costs have not aligned with the budgeted expectations and therefore, have cause cost allocation discrepancies. Overages in cost allocations negatively effect Eng Admin (General Admin for IS) & W/WW (50% to each). In the last three years, Eng Admin has seen deficits of \$315K, \$420K and \$342K respectively - mainly stemming from variances in staffing and equipment. This adjustment will help remove structural deficits within the budgeting process.

## Evaluation Criteria:

Criteria Description	Rationale	Impact	Weight	Score
<b>Core Service Outcomes:</b> How does this initiative advance your departments core service delivery?	This initiative helps manage the current realistic costs of running the IS department. It should improve deficits in W/WW. The same services would be offered; they would be accounted for accurately.	Low		
<b>Financial Rationale:</b> Does this request create a positive financial benefit for the Township? How does this request offer a strong return on investment?				
<b>Impact on the Community:</b> Does this request provide a direct benefit to the community? Will the public notice tangible benefits for this request?				
<b>TOTAL</b>				-

## Other Impacts / Risks

<b>Other Options Considered:</b> What other options were considered in this initiative?	
<b>Risks:</b> What are the risks of not completing the initiative?	Without completing this work, it will not be possible to understand the true operating costs of the IS division. W/WW will continue to be negatively impacted by overages in the cost allocation.
<b>Key Performance Indicators (KPIs)</b> - How would you measure success?	

## Operating Budget Impacts

2026 Cost Impact (\$ amount)	Description	2027	2028	2029

<b>Finance Comments:</b>

# New Initiative Request Form

IS-16

**Department:** Infrastructure Services

**Current Status:** 
**Initiative Type:** Core Need / Risk Reduction

**Priority Area:**  Infrastructure Renewal / Core Service

**Summary of Request:**  Winter Control Increases

**Detailed Description:**

The Winter Control budget has been historically underbudgeted for many years. In 2025, a significant deficit in winter control materialized due to a significant winter weather season. The 2026 Budget includes a request for an increase to the winter control budget.

**Evaluation Criteria:**

Criteria Description	Rationale	Impact	Weight	Score
<b>Core Service Outcomes:</b> How does this initiative advance your department's core service delivery?	Service levels are already being delivered in winter control; the issue is that the Township is not accurately budgeting for these costs, resulting in deficits year-over-year.	Low		
<b>Financial Rationale:</b> Does this request create a positive financial benefit for the Township? How does this request offer a strong return on investment?				
<b>Impact on the Community:</b> Does this request provide a direct benefit to the community? Will the public notice tangible benefits for this request?				
<b>TOTAL</b>				-

**Other Impacts / Risks**

<b>Other Options Considered:</b> What other options were considered in this initiative?	
<b>Risks:</b> What are the risks of not completing the initiative?	The Township runs the risk of structure deficits within the operating budget if no additional funds are provided to the Winter Control budget.
<b>Key Performance Indicators (KPIs)</b> - How would you measure success?	

**Operating Budget Impacts**

2026 Cost Impact (\$ amount)	Description	2027	2028	2029
\$ 100,300	Tax Levy Impact			

**Finance Comments:**

## RECREATION AND COMMUNITY SERVICES

### DEPARTMENT OVERVIEW

- Recreation Services
- Operations (Facilities, Parks, Trails, and Cemeteries)
- Project and Asset Management

Recreation Services is responsible for delivering programs and services that promote healthy, active lifestyles and enhance quality of life, social connection, and physical well-being for Woolwich residents. The division oversees recreation, leisure, and cultural service delivery through programming, special events, and community development. Core responsibilities include customer service, program administration, and supporting community capacity building.

The Operations area manages the Township's largest operating budget and is responsible for the maintenance of 33 Township facilities, 40 parks, 7 cemeteries, hundreds of acres of woodlots, and various other municipal assets. This work ensures that recreation facilities, amenities, fire stations, and other Township buildings meet community expectations and established service levels. The trails and volunteer coordination area oversees 65 km of Township-managed trails and works

closely with community groups and committees to protect the natural environment through education, awareness, and greening initiatives.

Project Management oversees the annual capital plan and multi-year forecast, focusing on park and facility enhancements and replacements through a sustainable lens. Working in coordination with the Township's Asset Management Coordinator, the Project Supervisor manages the department's asset management program updating our asset inventory annually.

### 2026 BUDGET HIGHLIGHTS

Factors impacting the 2026 operating budget include:

- New Parks and Amenities
- Rising Utilities Costs (hydro, water, sewer)
- Woolwich Memorial Centre Repairs and Maintenance
- Program Demand and Participation Levels
- Special Events and Tournaments

The department strives to balance community needs and expectations, programs, and service delivery with increased costs for the maintenance, service contracts and utilities of our parks and facility assets. The largest driver of the operations budget remains the Woolwich Memorial Centre, which will be 17 years old this coming year. As much of the building systems operate 24/7, and

the end of service life for equipment such as pumps and HVAC equipment is approaching, we are beginning to experience an increase of equipment failures as we near scheduled replacements.

Many of the department's program costs are offset with revenues generated through user fees from program registrations, ice rentals, aquatics, leases, facility rental permits, advertising, grants and partnerships. The Township also provides subsidies to important affiliated users and sport organizations, community groups and partners to support their operations. Additionally, Recreation and Community Services delivers many programs, events and services to the community which don't generate or aren't fully offset by revenues, but that support health, well-being, social interaction and connectivity. These important community services include:

- Library facilities
- Aquatics and arenas
- Trails and environmental initiatives
- Parks and amenities (sport fields, splash pads, playgrounds, and woodlots)
- Community events (Canada Day, Family Day etc)
- Hosting Special Events (Regional, Provincial and National championships, e.g., Ontario Provincial

Curling Championships, USports Women's Hockey Championship)

## NEW AMENITIES – SUBDIVISIONS

Operational and capital budget challenges continue to arise as we acquire parks and infrastructure assumed through new subdivision development. In 2026 alone, we will see the addition of three new parks in Breslau, including three playgrounds, one multi-use court, one soccer field, and 500 metres of new trail. Public expectations are that the Township delivers on these spaces and service levels through grass cutting, garbage collection, trail maintenance, and more. The department has added more than 60 acres of parkland since 2011.

The Operations area responsible for maintenance of these assets is comprised of two management staff, 11 full-time staff, and temporary summer staff. It's worth noting that despite continued growth, the addition of parklands and amenities, and the expectations to meet service level standards, the department has not seen the addition of full-time frontline staff in more than 13 years. Similar to the previous challenges in Infrastructure Services, contract management is a significant undertaking that continues to grow with deficient oversight. In addition to managing full-time and part-time staff, the Deputy Director and Operations Supervisor oversee contracts for turf, winter maintenance, fire and

security, HVAC, refrigeration, fleet and more. The department is not proposing the addition of either full time frontline or supervisory staff in 2025 due to competing corporate priorities and current financial challenges but highlight challenges continue to exist.

## CAPITAL

The department's 10-year capital forecast is based on priorities, service levels, and asset management data to best present a capital plan that includes new amenities and asset renewal. Pressures in 2026 and beyond lie primarily in the need for predictable capital funding to support large capital renewal projects such as the St. Jacobs Arena floor and boards replacement, and also the need for the department to dedicate significant resources annually to ensure we meet our legislated requirements for asset management.

The department's typical annual capital plan fluctuates between \$2 and \$5 million depending on Council priorities, including asset renewal and new amenities for all Township facilities, parks and trails. This year's capital plan includes about \$2 million due to current funding challenges the proposed St. Jacobs Arena project work of approximately \$2.5 million will likely not be completed in 2026 as it still requires an additional \$1 million in additional funding. Further to St. Jacobs Arena, the focus for 2026 lies in development charge funded projects, primarily in Breslau and Maryhill.

The department's capital plan has historically focused on repairs, replacement, and the addition of customer-facing facilities, leaving operations facilities with ongoing challenges and aging infrastructure. The lack of reliable and sufficient capital funding continues to limit our ability to plan for these assets, as well as large scale projects, whether that be a future fire station or a recreation/wellness complex in Breslau.
